HEART & STORY
This is a pre-planned, polished, and amazing work of cinema

EXPERIENCE
Proudly filming weddings & events for over 15 years

BEHIND THE **CAMERA**

Having a wedding film is like saving for your retirement. You simply do not realize the opportunity you have missed until it is too late.

Thank you for considering us to capture your wedding on film! I started this business in 2000 with the idea that each wedding is a unique opportunity to capture something amazing and new! We always strive to raise the bar on what couples expect from their wedding film – part of the reason we call ourselves filmmakers.

We want to produce fun, creative, and polished films for our clients. We invest back to our couples – as each wedding is completely different, we start the creative process from scratch at each wedding to create a truly unique experience. This is so much more than a simple DVD or Blu-ray disc...each couple, each wedding, and each film has a personality, and it is our mission to capture this and present an heirloom for you to pass down to future generations.

We invite you to take a look at our films and our approach to filmmaking through our samples on the gallery. If you enjoy what you see and would like to get more information by chatting with us over coffee (or even over Skype!) Please do not hesitate to let us know. We look forward to working with you to capture life's most important memories.

DESTINATION FILMMAKING

We are honored to have travelled from Disneyland to Mexico, The East Coast, Hawaii, Asia and everywhere in between!

We love traveling! Destination weddings are an absolute blast and allows you the freedom to leave your day to day worries behind and do nothing but celebrate.

We offer options that are all inclusive - all airfare, hotel and transportation fees are included when we provide you with our custom quotes. If international travel is needed, we have up to date passports and research what paperwork is needed for filming in a different country.

For domestic and international alike we prefer to arrive two days in advance and will stay through the following day. We have great options not listed here such as trash the dress or rehearsal coverage, please let us know your vision for capturing your destination event!

4K ULTRA HIGH DEF

Ultra high definition (UHD), also known as 4k, is the next evolution in the filmmakers toolbox

What exactly is 4k? Do you remember moving from standard definition TV into high definition TV? The quality standard was double the previous generation, more detail, more color, more clarity. The next step in image quality is moving from high definition into ultra high definition. Instead of doubling the number of pixels, 4k is four times the detail of high def!

You will need a 4K TV in order to see the full benefit of this higher resolution, but weddings filmed in 4K will look amazing and crisp on any display from your current TV to your smart phone or tablet device!

4k wedding films will have a very natural and accurate representation of the content, details will look incredible - from tears during a first dance, to the light reflecting on your rings.

As the detail, data, and equipment needed to fully utilize 4k capture are more intensive than regular high definition, we are happy to offer a sliding scale for your upgrade option.

We offer upgrades to 4k start at 1500 on top of an already existing package. As each wedding is different, we are happy to provide you a custom quote for your particular event.

Future proof the next generation of cinema quality by asking about a 4K upgrade to your wedding film!

1

INITIAL CONTACT & COMMISSION

We want to learn about your particular event and how we may best offer our talent and experience to best capture your vision. We are always happy to offer custom options to cover anything you want for your wedding film.

2

PRE-WEDDING PLANNING

We create a visual profile of your wedding and we incorporate your personalities to create something that truly reflects who you are at this time in your lives. While we prefer to connect face to face , we also can use Skype or phone. Typically this happens two to three weeks prior to your event.

3

THE WEDDING DAY

We use the best personnel and best equipment that is suited for each individual client. We bring our amazing tools and amazing talent to best tell your story, and we always guarantee a minimum of two cinematographers.

4

THE EDIT SUITE

All the pre-planning, emotion, themes, music, and amazing footage comes together in our editing suite. We dedicate on average 40-60 hours to the planning, filming, colorizing, and mastering of your finished film.
