WEDDING & LIFESTYLE PHOTOGRAPHY

Hi, thanks for having me in mind when choosing the most enduring of that wonderful day, your photos. After everything that involves your wedding the only thing left are
the photographs.

My idea is to be part of your history, all those **moments** that will be living since you prepare until you say **YES**, that without leaving aside the party, to give you every one of those small but significant moments **captured** in photographs that will allow relive every moment of that
great day.

As **Wedding Photojournalist** I love
the idea that you can fully enjoy
while I capture every moment of
your wedding day, naturally and
spontaneously

My vision is to achieve the most natural and **relaxed image** and still be beautiful.
