17428 West Grand Parkway South

832.535.2307 • WaxingSugarLand

We understand life may occasionally get in the way of your wax appointment. To ensure your Cerologist can continue to provide the best service possible to all clients, we respectfully request at least 24 hours' notice for changes or cancellations in order to avoid being charged 50% of services. Our Studio Coordinators are scheduling gurus! Simply give the studio a call when you need to modify, change or cancel your appointment.

MENU & FAQS

A dedicated waxing studio for every body (and face).

WAXING THE CITY®

YOU ASKED, WE ANSWERED!

Ready to go there?

WHAT IS A CEROLOGIST? At Waxing the City, our licensed estheticians are not only waxing specialists, they are the ultimate professionals at their craft. This led us to create our very own title of Cerologist, which combines "cera" (Latin for wax) with "ologist" (to indicate their level of education and expertise). Only Waxing the City has Cerologists, so don't be fooled by imitations at other salons!

WHAT KIND OF WAX DO YOU USE? We use 2 different types of wax. For the face and more sensitive areas of the body, we use a hard wax that shrink wraps and hardens around the hair and lifts from the skin creating a less painful removal. We use a more traditional soft wax for larger body areas such as legs, arms, chest, and back and it is removed by using a cloth strip. **Both waxes are specifically formulated for Waxing the City in order to give you the best waxing experience possible.**

HOW LONG CAN I EXPECT MY WAXING TO LAST? If you've allowed your hair to grow out to the proper length prior to waxing, you can expect to be hair-free for a minimum of 1-2 weeks following your appointment.

HOW DO I PREPARE FOR MY WAXING SERVICE? We recommend that you exfoliate the area several days prior to your appointment. Thoroughly clean the area keeping the skin moist, but not greasy from heavy lotions or oils.

HOW LONG DOES MY HAIR HAVE TO BE? Hair needs to be at least 1/4" to 1/2" for effective waxing. For most people this means waiting 2-4 weeks (minimum of 2 weeks) from the last time you shaved. The longer you wait, the better the results.

DOES WAXING HURT? Everyone's pain tolerance is different but you can expect a short, stinging sensation after the strip is pulled. If you are worried about being sensitive, taking an ibuprofen about 30 minutes before your appointment should minimize your discomfort (consult your physician before taking medications). Continuous waxing causes finer and less hair therefore waxing becomes less painful.

WILL MY HAIR GROW BACK THICKER AND DARKER? No. Waxing actually has the opposite effect. Hair that is removed at the roots grows in finer and softer over time.
