LINDSEY JANE PHOTOGRAPHY

the nitty gritty

My goal is to capture your wedding day organically, without feeling intrusive and ultimately giving you images that make you FEEL.

With a photojournalism background, I like to sit back and catch the fathers tear streaming down his cheek when he first sees his daughter in her dress. Capture the little ring bearer tasting the cake before it's been cut. But, having done over 200 weddings, I also am quite experienced at posing for family photos.

Here's what happens after you decide on a package:
I will send a contract and ask for 50% retainer to save the date.

A few months before the wedding, I will send off a questionnaire that helps me put together a photography timeline and get to know you.

If you live or will be in town, I would love to do a complimentary engagement session with you two.

Moments are what matter.

This quote below, I adore...

"you are taken by the picture as much as you are taking the picture"
