So WHY NEEK?

I have been working in the video production field professionally with an in-depth education on film for ten years. I work on a wide variety of projects, but I film weddings because I love giving couples movie moments that last forever.

My wedding videography style is the perfect blend of dreamy cinematography and YOUR unique relationship.

I don’t just want to create a stunning video.
I want to capture your raw love and personalities.

Please see below all video and photo services I offer. There's something for everyone and I'm sure we can find the perfect package for you. Plus, we have add ons for further customizations.

If you have any questions don't hesitate to ask.

2 VIDEOGRAPHERS NO TIME LIMIT OF VIDEOGRAPHY COVERAGE

THEATRE RELEASE - Wedding Highlight Film
4-6 Minute highlight recap of the day starting. It's a blend of my creativity and your relationship. I like to call it the Theatre Release because this is the video most people will post on their social media, its just enough to cover the big parts of the day and special moment, but not too much so it can be enjoyed by a wide audience.

DIRECTORS CUT - Extended Wedding Highlight Film
11+ Minute highlight recap with longer editing clips of activities and sound bites. I call it the directors cut because it features all the "deleted scenes" that would make the Theatre release way too long. It gives you a chance to see a bit more in real time and it features moments that may not make it into the smaller highlight video. The highlight film is usually fast pace and just a few second per event. The extended version allows you to see in longer format. It is perfect for you and your family members to watch over and over again.
