

## About Us:

We (Jordan and Morgan) met online in 2017 and quickly found out that our paths had somehow ran parallel for quite some time in that we knew so many of the same people and were even in some of the same places around the same time but God knew that we had some growing to do before we were ready. On our first date we quickly bonded over the love of Italian food, animals, childhood books and the love of movies. After a few more dates, I asked her out and she said yes. Since then we have basically been attached at the hip and realized that not only were we falling madly in love but, we also became best friends. Pretty early on, she got involved with the photography business and wanted to learn more about it since she had only photographed personal projects and had never really done much with professional video.

Fast forward a good bit to after meeting the families and the family meeting the other family and then us becoming really close with her brother and his now wife. They shortly after asked me to propose at their wedding since they knew I was trying to figure out how to do it and all of their family would be there from Cali and her family being present meant so much to her. Spoiler alert, she said yes and it went perfectly. Fast forward again and you arrive to our wedding date April 13th, 2018. We are now happily married and love being a part of other people's big day to capture it all!
