We believe your photos and videos are one of the most important investments you can make for your wedding day. After the food, cake and music are all gone, your imagery is what will last forever. It will be what you hang in your home and show generations for years to come.

We take many things in to consideration when developing our packages for our clients. We don't charge by the hour and all of our packages include at least two photographers for the entirety of your special day. We understand many situations arise when planning such an event, the last thing we want is for our clients to worry the photographer's time is coming to an end. We will be there from the start of the day until the last major event has occurred.

We also include a free engagement session with every booked wedding package. We feel this engagement session is a great opportunity to become better acquainted and begin a positive rapport going into your special day.

“My name is Robbie Snider, founder and lead photographer of Pardomas. I have a strong passion for traveling, working with people and photography. I can't think of a better way to mix these passions than to shoot weddings. Getting to shoot a wedding is like getting a backstage pass to a special event. I get to witness all the events leading up to the ceremony and watch it all come together into a beautiful moment, and I get to be lucky enough to document it along the way.”
