Testimonials:

*The most incredible part is the view - the floor to ceiling window frame with the entire span of the Manhattan bridge is really breathtaking... We are still getting compliments on choosing such a cool place for a wedding a month and a half later. If you're in the market for a wedding venue: this is a hidden gem, and so worth it. – Yelp*

*The venue is amazing. Our guests loved the views of Manhattan and the bridges. – Wedding Wire*

*My husband and I recently got married at Smack Mellon and had an absolutely amazing day. The location is simply gorgeous and great for pictures. Our guests absolutely loved the space and the real NYC feel to it. You get the space for 12 hours which allows you to do both the ceremony and a long reception there if you would like. It is the perfect setting for a wedding that is a little bit unique and provides a lot of ambiance on its own without spending a fortune on decorations. – Wedding Wire*
