

Be BOULDER
PHOTOGRAPHY

Hello!

My name is Eleanor. I'm a Colorado photographer, and I'm obsessed with weddings. I still tear up when I see a beautiful bride walking down the aisle, or tender smiles during vows. I want my photos to that tell that story—of sweeping romance, emotional outpourings, roaring laughter, and hilarious surprises. I'll also capture all of those details that you put so much thought into...the setting, the flowers, the rings. These things add to the uniqueness of every wedding day. I'll help you keep your day low-stress by honoring your space, because photography should capture the experience, not dictate it.

We can make your photography plan as simple or elaborate as you like, from the bare essentials of a backyard barbeque to an enhanced experience with an engagement shoot, first look, getting ready and reception.

My hourly rate is \$500 shooting time on the day of your wedding, and that includes a second photographer, and a full set of the digital files, color-corrected to perfection, which I will deliver to you via digital download and/or USB drive. Prints, albums and other products will be available for purchase as well.

Also, I honor and photograph couples of all races, ethnicity, religion and sexual orientation.

If you think my style matches your own aesthetic, let's work together!
