Girl calls photographer.

wedding pricing

I'm not your average photographer by any means. For starters, you will not find collections or packages here in my wedding pricing. It's all straight forward and very simple to understand. I'm a documentary photographer. Or story teller. Still image maker. Professional light chaser! Photography should be all about telling a story through photographs. On your wedding day it should be YOUR STORY. I weave the photographs we make together so that the viewer, your future generations, understands the story that happened on your day. Because of this it is very difficult for me to time the coverage. I start when you start and finish when you finish. And sometimes longer! Especially if the party is still going on! Please look things over and contact me if you have any questions.

Oh, and I'm an old fashioned girl and like to "meet in person". So, let's get together for drinks, coffee, a walk or FaceTime.

I look forward to hearing all about YOUR story!

Love does,
Kristin

say what?

here's where I explain things...

Add only what you need. Start with your photographer and add additional items to build your dream coverage.

bridal session \$650

A BIG Texas Favorite, with a twist of me thrown in! I love magazines and fashion spreads and read several per month. Seriously, one of my favorite things to photograph is a girl all dressed up in a masterpiece she's chosen and photograph every last detail of her and her gown. I LOVE it! From jewelry, shoes, to those amazing bridal things, even down to the "unmentionables". Your choice, completely of course. Not a stuffy studio session, yours will be lively, adventurous, and just plain fun! Spend the afternoon being photographed in the latest style and yes, the dress may get dirty. But who cares? After your last fitting, skip the pressing and cleaning and just BRING IT ON! You can clean it after.

Includes

- creative planning session
- photography time as needed
- 24 x 36 canvas

2nd photographer \$1000

Two are better than one, right? Not always. If you are having a small, simple affair, you may only need me. However, many times the situation arises where simply 2 are needed to cover the day's plans. If you have invited 200+ guests, or extensive plans for both the groom + the bride's day, you may need a 2nd photographer. It means more coverage, more photographs. All image are included and published on your online wedding gallery. The shooter I work with is a full time photographer and we both shoot with each other. He's a great guy!

rehearsal dinner coverage \$500

I will attend your rehearsal and meet the family and wedding party. Get the folks used to my face. They are going to be seeing a lot of me over the weekend and people photograph better when they are relaxed with folks they know. print pricing

I strongly believe that digital images are meant to be PRINTED and shared with your future generations. Please do not let them live on a hard drive, a jump drive, any kind of drive. Yes. Protect them, store them, treasure them forever, but print them and display them in your home, on your walls, share with family.

I put my very best into each and every image I produce. All prints are edited, color corrected, enhanced, retouched, and cropped, by me before being printed at the top professional imaging lab in the nation. All images are printed on professional, archival, luster photographic paper, and then sprayed with a protective coating to increase their lifetime. These are your memories to pass down to generations; they are printed to last. All prints 11x14 and larger are board mounted for rigidity and durability. You order directly from your online gallery, or contact me to set up a viewing session.

It's a win-win! Your favorite people get photographed doing what they do best, BEING THEMSELVES. And I adore this idea for a wedding! A professional photographer will come and set up an open-air photo booth. It's 12x12 and works well close to the dance floor or party activity. Really, any area where the guests are works just fine. It's a white backdrop that plays friendly with any decor and totally shows off your guest's clothes and personality! The Party Booth totally ROCKS!
