WEDDING INVESTMENT

THE EXPERIENCE

My style is fun, bold + authentic and my favorite images are those moments in between when you might not even realize I'm still snapping.

I love everything about weddings (especially the cake) and I appreciate every detail that you put into yours from your choice of venue to the first song you dance to. A lot goes into a wedding, there's no doubt about it, and I'm here to lend a helping hand all while delivering to you the best images.

From pinning boutonnieres on the groomsmen, making sure there's no hair ties on the bridesmaids' wrists to bustlin' dresses and putting in veils – I GOT YOU! I take photographing weddings seriously and make sure that everything important to you is documented so you can relive your wedding day over and over without missing a beat.

So, if you're down with that, let's get this party started.

featured in the following
