**Lovely to Meet
you:)**

Thank you very much for the honor of considering us for your special day. We would love to tell the story of your day through pictures.

We have been married for over 11 years and share a love for travel. We have a wish list of places around the world

we want to visit and are slowly checking them off:)

I have seen Star Wars more times than I can count. Mel loves cooking, I love eating, so its been working out perfectly:). We're still not sure who loves Starbucks more, but we wouldn't mind

discussing it more over coffee...

We would love to meet you and hear your story!

Our Approach

To give you an idea of how we like to shoot a wedding, our style is a combination of editorial and documentary photography. We love to shoot in an editorial style for the bride and groom's portraits (think of a magazine spread) and a documentary style for the rest of the day. This means we use as little flash as possible and give very little direction to the day, which really helps to capture the day as it unfolds. This leads to much more intimate photos, candid moments and captures what it felt to be there.
