

ANTHONY ALEXANDER

ANTELLIGENT PHOTOGRAPHY

What to Expect

I shoot to capture your special moment and showcase the pictures the way they were meant to be seen using my film and digital cameras. Then I secure every picture on one of the best cloud storage out there. All your precious photos are protected and I share them with you after I publish the images to my site for you to see and share with your family and friends. You will have the option to view and download your photos at full resolution or web resolution anytime, anywhere you are online.

Arrival

I will arrive at least 30 minutes prior to start of event or session. This will give us some time to cover details of your session and discuss what is expected from me as far as shooting and capturing important shots that will make the project successful.

Services

1. Photography
2. Videography
3. Digital Retouching
4. Graphic Design
5. Print Production

Gig Lengths

60 - 500 minutes

“ I use the safest cloud storage available. My goal goes beyond capturing great images and precious moments. I also make it my job to protect and preserve every picture by backing up and storing them in the cloud so you can easily access, view, and share them at full resolution, anytime, anywhere. ”
