# WEDDING DAY SILVER PACKAGE

\$1,500

The Silver Package includes 6 hours of Wedding Day coverage. A second shooter is there to capture multiple viewpoints of the day. This is an excellent, budget friendly option for couples. The most important thing to consider when making a decision based on amount of time is to look at your vision and timeline. Below are some of those items to think about when choosing a package.

## THINGS TO CONSIDER AS YOU REDUCE TIME

- **First Dances:** Before or after dinner? It makes a big difference 'time' wise if you wait to do them after dinner. Also, visiting tables before first dances takes up time that is necessarily photographer moments
- **First Look:** If there is a first look before the ceremony, that saves times time after it for formal family portraits.
- **Flowers/Details:** Where are they being delivered? and what time? Sometimes the flowers are delivered to the ceremony, like a church, which prevents us from photographing those special details until closer to the ceremony times.
