2012

- photographer -

I would like to take a moment to thank you for your consideration. I understand how difficult it can be selecting just the right photographer to capture one of the most important days in your lives and I am humbled that I made the short list. As a natural light film photographer, I want nothing more than to provide my clients with beautiful fine art imagery that is both classic and timeless. That is why I love film so much. With so many options in the photography industry it is easy to be swept away by current trends. Film guarantees that your day will look as beautiful fifty years from now as the day you were married. I would love the opportunity to document your day the only way I know how, with passion and fervor.

Thank You,

Maitha

The engagement session is an intricate part of the relationship building process between client and photographer. This is the best opportunity for us to get to know one another and allow my clients to become familiar with my unique style of shooting. I work very closely with all my clients during the concept phase while planning the details of the session including wardrobe, props and location. Typically the sessions will take place in the later afternoon hours when the sun is lower in the sky. I always choose locations outdoors and of an organic nature with plenty of natural light. A typical session last around 2 hours and results in 60-80 images. The images are then delivered before your event.

# Q & A

## *What is the online gallery and where can we view it?*

The online gallery is a special online storage of your images made available to you following the completion of the edit. The gallery is password protected which allows you to permit only those whom you would like to share the gallery with. You can also select images for your album purchase or order prints. You will receive the link to the gallery in an email. The personal gallery will remain active to the couple up to 6 months after which it will be removed.

## *How many images can we expect?*

Typically a couple will receive on average 600+ final edited images in their gallery which will then also be provided to the couple on a personalized USB drive. This number fluctuates depending on the amount of coverage, whether there is a second shooter present, and whether a couple opts to see one another prior to the ceremony in order to make time for more photos. The more time I have to shoot the more images will be provide to the couple.

## *Do you shoot film or digital?*

For the majority of the day I will shoot on film and switch to digital for low light reception and dancing photos. Whether film or digital, you will receive the full resolution images on a custom USB following the wedding.

## *Do you travel for weddings?*

Yes, I am available for commission worldwide. A travel quote will be added to the balance for all wedding outside of Belgium. Other than travel fees consisting of round trip airfare or train from Belgium, 2 nights hotel accommodations, there are no additional fees for these types of weddings.

## *Booking your event.*

Contracts and my terms & conditions are sent once wedding date and time estimates are decided. A retainer of 30% plus travel fees and a signed contract reserves your date.

## *After the wedding how long does it take to see our wedding images?*

Each image is hand selected and edited to tell the story of your wedding day. This process can take anywhere from 8-10 weeks. Once completed, your collection will become available in your personal, password protected gallery and will consist of a mixture of color and b & w images.

## *How are the images delivered?*

Full resolution images are delivered on a custom USB drive. If you've decided to order an album, images can be delivered electronically through an FTP link. USB can be delivered with the album in a custom package.

## *Reception.*

While my signature style is largely dependent on outdoor, natural light photography with soft muted colors, I know how to get down the best of them. The reception is a great place for us both to let our hair down. I really love the contrast between the romantic ceremony and the more energetic receptions and I want this reflected in my images. For this reason you can expect for the majority of your dancing reception shots to be shot in black & white. More often than not the dance floor gets very dark with erratic lighting which can be a real challenge which it comes to exposure and color. Black & white images is the perfect solution but also brings an entirely different feel and mood than those of the ceremony and portraits.

## *Bookings*

The booking process is simple and pain free. All bookings and contracts are received and completed online via email. I will email you a contract where you can print, sign and date. You can place the 30% retainer and any travel fees via bank transfer or I can invoice you through Paypal. Because of limited number of weekends available for weddings I am unable to hold dates without contracts and retainers. Thank you for understanding.
