As a passionate wedding photographer, I wholeheartedly believe in the significance and deep spiritual connection that love represents in people's lives, especially as they embark on their journey into marriage. It is both an honor and a profound responsibility for me to document the precious moments of your wedding day. My approach is rooted in capturing genuine and candid moments, preserving the authenticity of your love story. While I do provide guidance for posing when needed, I prioritize making couples feel comfortable and at ease in front of the camera, ensuring that the day unfolds naturally.

What sets me apart is my commitment to delivering a personalized touch to every aspect of your wedding photography experience. I handle all aspects of the editing process personally, without outsourcing any part of it. I capture a generous number of images during the day, typically ranging from 300 to 500 images per hour, carefully curating and editing at least 100 images an hour in three distinct styles: Traditional, my signature edit, and black and white. In addition to these meticulously edited images, you'll also receive all the unedited shots I took throughout the day, ensuring that you have a comprehensive collection of memories to cherish for a lifetime.

My dedication to preserving your wedding day's authenticity and my personalized approach to photography sets me apart, making your wedding photography experience truly unique and memorable.

Here are some examples of my three styles of editing. If you would like to see more examples, feel free to visit my website or Instagram. I also would be happy to show you a finished wedding gallery.

Thanks!
