

# Wedding Music Options

## Traditional or Themed, We Can Do Either!

Your wedding is a day that only comes once, and that's why choosing the right music is so vital. As an event planner and musician, Anne is able to help guide you through any questions you have about themed wedding music, or traditional favorites etc... When you work with the Martin Duo as your performers, they will be able to dress in a style that fits your wedding, suggest music that fits your theme. Choose from the 200+ songs we already know, or we can learn new songs if needed. Whether you are just looking for 1-2 songs, or cocktail hour entertainment, or vocalists to work alongside another band. We can work out the details with you. We also own and can provide a sound system for your ceremony.

---
