

Dear Bride-To-Be,

Congratulations on your engagement! I am so glad you checked us out on our website for live music for your wedding! We are a top-rated wedding band on wedding wire, a popular site for engaged couples, with five out of five stars. We are known for our variety and for our covers of awesome epic songs such as "The Devil Went Down to Georgia." We play all kinds of top-40 songs as well, along with just about every other genre you can think of; for example we do a cover of the crazily popular dance song, "Blurred Lines" by Robin Thicke. What makes us stand out from other bands is having the fiddle, which makes Remedy an especially great choice for a wedding for someone who wants live music, as you want a reception that guests will remember for life!

I specialize in weddings and have been helping people plan their wedding music since I was fourteen, I absolutely love weddings! Being a former bride myself I know what you are going through and can help you plan things out quite a bit. With an experienced live wedding band like Remedy, you get so much more for your money. Our basic rate includes three hours of cocktail hour/dinner music, four hours of reception music and an emcee (that's me) for the night. We also DJ on band breaks. I will also include one meeting with you and your fiancé to discuss music choices and an event timeline. Being an experienced wedding planner, I can coordinate with other wedding and event staff to make your wedding music goes as smoothly as possible. You also can order extra special details for your event, such as classical violin for your ceremony and jazzy live piano music for your cocktail hour or during dinner. Almost every type of instrument you can think of is available to be added such as harp for the ceremony or a horn section for reception. Let me know what budget you are thinking of, and we can work to create the wedding music package of your dreams!

So, to recap our basic wedding package of \$3,600 includes:

- 3 hours of dinner/cocktail music
- Set up and use of Remedy sound system
- 4 hours of reception music
- emcee and DJ for the evening
- event coordination and planning
- planning meeting

If you are more than 1.5 hours away from us keep in mind we will need to also factor in travel costs as well.

I really look forward to planning your wedding music together. Feel free to call me or text anytime with questions.
