Our wine bottle wedding favors are typically bottled in 375ml bottles, which will pour about 2.5 glasses of wine. This is twice the size of the pre-made wine bottle wedding favors you can buy that will cost you more per glass. (The wine bottles on airplanes are the pre-made ones if that gives you perspective). Our 375ml wine bottle wedding favors are only about \$5 each – 1/2 the price of pre-made wine bottle wedding favors you can purchase. This is the most personal and creative wedding favor that we guarantee no one will leave on the table.

Our wine-making process starts with premium wine juice, not wine grapes, so the entire wine-making process is completed in just 4-8 weeks. Our wines are made in batches of 6 gallons, each batch yielding 60 wine bottle wedding favors. You will make your wedding favor wine(s) in 2-3 steps in our shop over those 4-8 weeks, all with our personal hands-on instruction. Beginners no fear, there is no wine-making experience necessary. The first 2 wine-making steps take about 1 hour. The final step is the bottling of your wine bottle wedding favors. Plan on making your bottling day a social event to remember. Invite your wedding party, family, and friends – we encourage you bring lots of food, and take lots of pictures! After all, you will be bottling, corking and labeling lots and lots of wine bottles – so the more hands to help the better – and a fantastic wedding memory to share. If you would like us to recommend a caterer to make your bottling event more memorable, we would be happy to refer one to you.
