

KC Sound at your Wedding

With all the planning involved in the months ahead, one of the most difficult aspects may be the search for entertainment. Since 1998, I have had the privilege of personally providing DJ entertainment at **over 300 weddings, with more than half of those coming since 2013.**

As your DJ, I will handle your entertainment needs myself, from our first email to your last song. When you arrive at the reception, I will greet your wedding party and arrange the order of introduction. From there I will go by the itinerary that we composed together. My personality will be very professional. I am not one to put on a fuzzy hat or feather boa, nor will I be leading any trains around the room or pulling your guests onto the dance floor. **I feel that your guests are there to see you, not me.** I will do my job from behind the scenes, reading the crowd and taking their requests, and coordinating with the venue manager and photographer to make sure everything goes as planned. Below is a list of services and prices for your consideration:
