

KC Sound at your Wedding

With all the planning involved in the months ahead, one of the most difficult aspects may be the search for entertainment. For 20+ years, I have had the privilege of personally providing DJ entertainment at **over 480 weddings**, and hopefully yours will be next.

As your DJ and MC, I will handle all your entertainment needs myself, from our first email to your last song. When you arrive at the reception, I will greet your wedding party and arrange the order of introduction. From there, I will go by the itinerary that we composed together. My philosophy is simple: **Your guests are there to see you, not me.** My personality will be very professional- I am not one to put on a fuzzy hat or feather boa, nor will I be leading any trains around the room or pulling your guests onto the dance floor. I will do my job from behind my booth, reading the crowd and taking their requests, and coordinating with your other vendors to make sure everything goes as planned. Below are available options for your consideration:
