It's tight hugs and messy bedrooms and teary eyes paired with wide grins and forgetting your homemade bouquet in its vase all day and no timelines and veils tangled with leaves and laughing about the music not playing down the aisle and ignoring the camera. Be present for these moments rather than fabricate them for images. Put what society has made you think you need to do at your wedding on the back-burner and do what makes you happy. It can all be so over complicated and stressful... but it doesn't need to be. It's a simple concept. Just be there. It will all fall into place. The worst thing that could happen is that you don't get to experience your wedding day.

As a documentary lifestyle photographer, I strive to capture those real interactions and emotions behind one of the biggest days of your life. The lifelong commitment you make to your partner is something that should be documented in a raw and personal way. I am not a distraction, but rather a fly on the wall; someone who encourages candid, real, and uninterrupted moments. You will receive a storytelling gallery full of images within 4 weeks of the date, with a couple same-day or next morning previews. Every package also includes an engagement session that has a similar approach. Feel free to ask to see full galleries of past weddings, I am an open book.

### **What is an "after session"?**

An after session is a shoot we plan anytime up to 6 months after your wedding. It is a time to reflect and enjoy this new chapter outside of the wedding setting. It can also be added on to any package for an additional \$900.

### **Do you offer prints?**

The gallery site I use has a print option, where you can purchase individual, high quality, professional prints. These prices above do not include prints.
