Sarah C. Stewart Photography

First of all, I would like to give you a HUGE thank you (and a huge hug) for choosing me to be a part of capturing this once-in-a-lifetime day. Your wedding day is something that you will hold onto forever, and I am so honored that you have chosen me to help you document it.

I created this guide for all the future misses and misters out there. I want you to know exactly what you are investing in!

I absolutely can not wait to be there to celebrate with you, capture every in-between moment, and document a story that will last through the generations.

Let's go tell your love story!

Sarah C Stewart

Before we get into the nitty gritty, here is what I am all about: I am not merely a wedding photographer. I am someone who is going to help you tell your story in the most meaningful, raw, and authentic manner possible. I will be there to capture both the quiet and loud moments. The moments filled with endless belly laughter, and the moments when tears drip off your nose. I am here to capture and document every in-between moment that makes your love story so unique. I won't just merely be snapshotting photos. I will be documenting your story: a story that will last a lifetime.

FAQ

//

We are indecisive on the whole “first look thing”. Is it worth it?

I highly recommend a first look for your wedding day! Of course, you should do what you feel is best! Maybe a first look isn't what you had imagined, and that is totally okay! This is a question I get asked quite frequently, so I made sure to include it. If you are considering a first look, here are some benefits:

1. Brides and grooms: you get the chance to be together personally. It gives you a chance to be together without the presence of a huge crowd, allowing you the freedom and time to release every raw emotion. You get to see each other for the first time in a personal, intimate moment.
2. After a first look, you can take bridal party, groomsmen, and family photos. This way, you can get the photos done before you even walk down the aisle! Then, you can head straight to the reception to dance the night away with your beloved and loved ones.

Are you willing to cover the entire wedding day from morning to night?

Yes, yes, and yes! My favorite part about capturing weddings is every single in-between moment. I am available to capture every part of your day, including getting ready, bridal photos, bridesmaid photos, groomsmen photos, family photos, cocktail hour, the ceremony, the reception, and the departure. You name it, and I will be there to capture it!

Do you bring along a second shooter?

Yes! This depends on the size and length of the wedding. However, I typically bring along a fellow photographer! It is so important that I capture every single moment of your day. So, I always make sure to bring along a professional and experienced photographer who can capture additional photographs! As the famous quote goes, “teamwork makes the dreamwork”.

How far are you willing to travel?

Travel is one of my many love languages. I am willing to travel anywhere! You name a place, and I will be there.

Do you offer wedding albums?

Absolutely! Wedding albums are an optional add on for every package. They are 10x10 linen albums from a company that I greatly adore called Artifact Uprising. And trust me, these albums are one of a kind. They are customized beautifully, the pages lay flat, and they are ornately detailed. These are no ordinary albums, as they are designed uniquely to every couple. This isn't your typical wedding album that will eventually be slid inside a dusty drawer. This is one that you will want to leave out on your coffee table so you can glimpse at it everyday and share with everyone who enters your home. Truly, it will be a book full of tangible memories that will last through the generations.
