## 2 Shooters

Having Photographed for over 10 years, I find it rare that a second shooter is necessary. However, depending on the event, I can add one if it's needed.

A lot of photographers will offer a second shooter to make the deal look better. It's my belief that the best quality offered is for me as the artist to take every photograph and edit every photograph. I don't send out the work for someone else to edit, I take every photograph, remember every moment and nothing gets lost.

A second shooter will cost an additional \$500 for a full day.
