Q || *How far out do I need to book you?*

A || I have had brides book me as little as a month before their wedding if they are lucky enough that I happened to be free! That doesn't happen very often though, as my calendar fills up quickly. The quicker you sign on, the sooner you can breathe easy that your photographer is secure! One less thing to worry about, and one more thing to get excited about.

Q || *How does album design work? Do I choose the photos? Do you only choose them?*

A || It is a joint effort when it comes to album design. Initially, I design the album and tell the story through my photographs and eyes, than send a digital copy of the album to you to view online. We than go over the design, and adjust it to your liking so that we can get it to be perfect for what you are looking for. 99% of the time my brides fall in love with the design and can't wait to hold the album in their hands.

Q || *I keep hearing about digital negatives. Do I get them all? What are they?*

A || Digital negatives are the full resolution images that are produced from the professional camera equipment. They allow you to print in any size you would like. You get to keep all of these no matter what wedding package you purchase. The only restrictions are that they may only be used for non-profit and personal use, cannot be edited or modified, and cannot be used for commercial purposes.

Q || *What payment options do you have available?*

A || I accept personal checks , and money orders for full payments and deposits. A 50% deposit is required to hold your date. Please feel free to inquire further if you would like to talk about payment options, or credit card purchases.

Q || *Who is your second shooter? Are they qualified? Who else will you bring to the wedding?*

All My second shooter is always a professional photographer with my experience in shooting photos, as well as professional caliber equipment. All second shooters are personal friends, or sometimes even family that are used on a regular basis. Along with my second shooter, I will sometimes bring an assist to help with equipment / lighting throughout the day.
