THANK YOU

Thank you for choosing Blakeburn Studios for a custom wedding experience that celebrates your love and your story.

Weddings are our passion! There is nothing more special than making a bride feel beautiful on her wedding day, and immortalizing those once-in-a-lifetime moments, for years to come. When working with a couple, our goal is to show the intensity of their love on their biggest day together, through the use of beautiful story-telling portraits.

Every couple has a unique wedding day. Blakeburn Studios works with each couple on every aspect of a wedding day to ensure that we deliver the best possible portraits for you and your family. For this reason, our wedding packages include entire day coverage, from hair and makeup, to the end of your reception, with as many photographers as necessary to tell your wedding tale.

Lastly, we are strong believers in having a tangible memory of your wedding day. When was the last time you printed a photo, or perhaps constructed or paged through an album? Albums and prints are something often handed down for generations to enjoy, and always increase in value, becoming a priceless family heirloom. Think of how delighting it is to retell those stories with your family, keeping them alive, while paging through each photograph in an album that has been handed down multiple generations. We understand these albums are of utmost importance. Each album we create is custom-designed to tell a couple's story. We fully retouch each image and have them printed with the highest quality available. Finally, the images are bound into a leather book, for elegant memories, for generations to come.

Let us fulfill your wishes for a lifetime of stunning portraiture that ensures your home is one filled with beautiful memories.

ABOUT THE ARTIST

Hey there! I'm Matthew Blakeburn, the owner and Portrait Artist of Blakeburn Studios. Based in Clinton, Oklahoma, with offices in Milwaukee, WI. I work both locally and around the world. I specialize in capturing moments in time as emotional works of art through vivid and inviting cinematic design. I work one-on-one with each and every one of my clients in order to make the whole experience personable, intimate, fun, and unique. With over a decade of professional experience in both portraiture and commercial work, I have photographed countless sessions, families, and weddings in as many places.

I became interested in photography early on. At the age of 13 I went backpacking with the Boy Scouts on an 80-mile trip over the course of 11 days. The very first day of the trek, I broke my glasses so that they were unwearable. The only thing that I had to see the mountains of New Mexico and the beauty around me

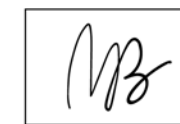

was my father's 1st generation Point-and-Shoot digital camera. Let's just say, I haven't been able to set a camera down since.

I began my professional photography career at the age of 16 with a family-owned portrait studio in my hometown of Clinton, OK where I started in the "Green Screen and Retouching" department. After high school, I moved to Pittsburgh, PA where I studied for a Bachelor of Science in photography at the Art Institute of Pittsburgh. While there I trained in classical master portrait techniques, commercial photography, B&W film and the Zone system, and a myriad of lighting techniques. During my time in Pittsburgh I worked in many different areas of photography including pet portraiture, commercial and editorial work, and composite commissions.

I am proud to say that I have been able to study with countless exceptional photographers including Tony Cilento, Jon Allyn, Luke Edmonson, Joe McNally, Jerry Ghionis, and Jon Lisbon, in addition to regularly attending workshops and continuing education courses. Currently, I am a Certified Professional Photographer (CPP) with the Professional Photographers of America (PPA), a board member of the South Eastern Wisconsin Professional Photographers Association, and am working on attaining the rank of Master Photographer with the PPA.

In 2012 I moved to Milwaukee, WI to work with one of the largest photographic companies in the world in their high-end division and as a Director of Photography. I then went on to earn their highest award of recognition. In the summer of 2015 I started my own photography business and in January 2016 decided to open a studio in my hometown of Clinton, OK. Having my own studio has given me the opportunity to photograph in many new and exciting locations including, Milwaukee, Chicago, Boston, New York City, California, Oklahoma, Texas, Pennsylvania, and Paris, France.

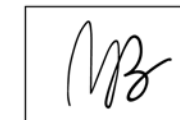

In December of 2016 after months of renovations we opened Blakeburn Studios in Downtown Clinton, OK. I can't wait to see where we go.

PRE-WEDDING STYLED SESSION

Have you ever noticed that most engagement sessions are of a couple under a tree in a park or the cliché Pinterest signs? At Blakeburn Studios, we believe in making your pre-wedding engagement portrait session as special as your wedding day and avoiding the cheese. We do this by creating a themed pre-wedding photo shoot.

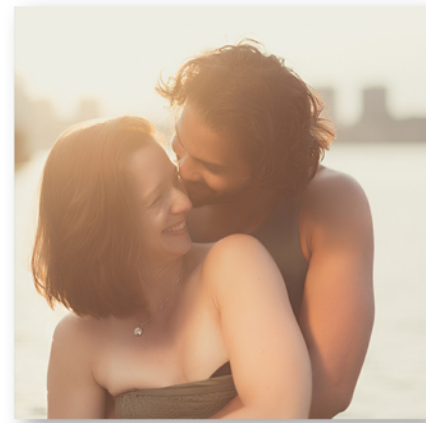

The pre-wedding portrait session is similar to a standard engagement shoot. Instead of spending 30 minutes to an hour, we take as much time as we need to tell your story. The session is planned with a consultation, where we will come up with a theme and story. It could be anything from your "ideal day in NYC" to "a Parisian romance", anything is possible. We will work together on outfit(s) and styles and provide a makeup artist and stylist. Think of the pre-wedding session as a magazine photo shoot with you and your significant other in your ideal day together.

400

ENGAGEMENT SESSION

The standard engagement session is a one-hour session in our portrait studio or on-location.

150

BRIDAL SESSION

Our bridal session is a one-hour session in our portrait studio or at your choice of outdoor location. The bridal portrait session is a great way to have a beautiful portrait of you and your dress on display at your wedding.

150

TRASH THE DRESS SESSION

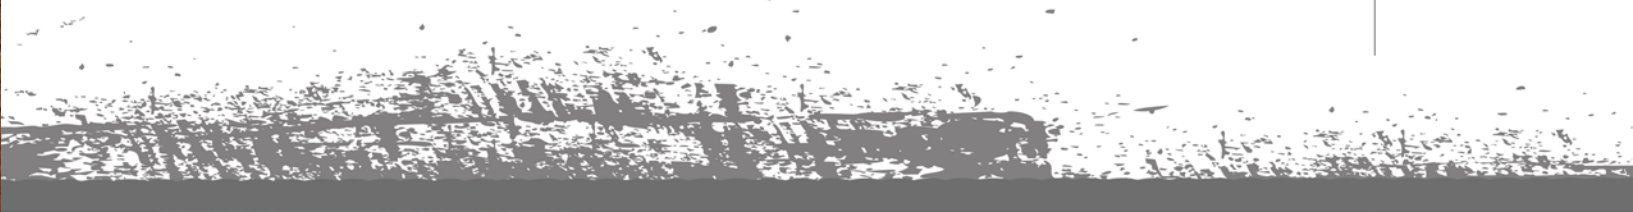

The Trash the Dress session is a glamour photoshoot where we get to do fun and dramatic portraits that we'd never ask the bride to do on her wedding day (stand in a lake, ride on a horse, etc.)

150

BRIDAL BOUDOIR SESSION

Our bridal boudoir session makes a great gift for the groom. See our Boudoir Brochure for more information

WALLdecor:

canvases &
gallery wraps

CANVAS PORTRAITS

Blakeburn Canvas Portraits are printed on the finest of artist canvas using an archival dye process, then coated with a protective gelcoat to last for decades. We offer two styles of canvas portraits. Standard canvas prints that are mounted on an acid free backing board, for traditional framing and contemporary hand-made Gallery Wrap presentation that can be displayed with or without framing.

With Canvas Portraits, you can see the individual threads of the canvas fabric that they are printed upon, giving a rich, classic look.

giclee &
metal prints

GICLEE WALL DECOR

Blakeburn Giclee Wall Decor Portraits are custom retouched in house by our Portrait Artist, then printed on the finest resin coated photo paper and glazed with a UV inhibitor coating that acts like a sunscreen for your portraits, minimizing the effects of indirect UV light. All wall decor prints are mounted on an acid free substrate and ready for framing.

WALLdecor: trio collections

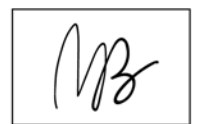

TRIO COLLECTIONS

Blakeburn Trio Collections are the perfect way to honor your loved ones, while telling a story of your family in a way that a single image cannot. Many designers recommend image groupings for a strong visual impact. Select from symmetrical arrangements of 3 equal sized images or sophisticated designs of varied sizes. Trio collections offer a significant savings over individual portraits and are available in your choice of standard Canvas, Gallery Wrapped Canvas, or Giclee Prints.
