Travel costs

- All approx. Total prices are for Florida based events & weddings; however, Jacob is very willing to travel (love traveling) anywhere in the United States, and worldwide. Explain where the event is located, and a punctual assessment will be conducted to estimate the most cost-effective way to come to your event. If agreed upon, those costs will be conveniently added to the total cost, and will be part of the non-refundable, initial deposit so that travel plans can be made ahead of time.

Painting compositions / additional requests after agreement

- Much experience, care and attention go into each painting composition. Knowing intuitively what is best for each painting and scene, initial conversations will take place so that every effort will be taken to ensure your moment becomes a personalized masterpiece on the first attempt.
- Based upon the size of the painting, and price point, only so much detail will be put into a particular painting. Added requests for painting elements including arrangements, various family members or loved ones etc. after agreement will be extra work and the artist reserves the right to decline requests unless a reasonable agreement is made for additional compensation.
