Hello!

First of all, I truly appreciate you taking the time to get to know me and my work! I'm glad you found me and so flattered that you are drawn to my style of photography. Photography has been a huge part of my life for as long as I can remember. I started shooting weddings when I was only 16 years of age assisting the top photographers on the island.

For the last 10 years it's been a pleasure to work with clients all over the world, gaining a lot of friends along the way.

I really do have the best job and it's never taken for granted. Being a photographer is such an honor and I feel so privileged I get to make a career from it. I've always loved documenting peoples' stories and it would truly be an honor and privilege to tell yours.

I take the time to get to know you and help you feel completely at ease, so you can focus on being present and enjoying every moment, knowing **I'VE GOT YOU!**

The Process

MEET

The key to getting a beautiful final product is having a wonderful relationship with YOU. I'd always LOVE to e-meet my clients at least twice prior the wedding day so we can get to know each other, share ideas, visions and together plan your perfect day!

CREATE

Our style is very photo-journalistic. My goal for your wedding day is to document you. Your love story. Your real emotions. Not posed. But present. Being present rather than perfect is the only thing that will allow you to love every moment of your day now and every time you look back on your photos.

DELIVER

Our workflow includes carefully selecting the best photos one by one followed by color correction and light editing. The final photos will be delivered on a personalized online gallery where you can view and download them.

This process will take between 5 and 7 weeks.
