As required by law, state sales and other applicable transactional taxes will be collected on the service charge. Under Federal Law, a service charge cannot be a tip and under State Law the Hotel is required to disclose that the Service Charge is not a tip and will be retained by the Hotel. Because of this, the employees participating in your Function are generally compensated at rates well above minimum wage, so tipping of these employees is not necessary. However, in the case of exceptional service, please feel free to add a tip and 100% of such tip will be distributed to the employees on an established pooled tip basis or as directed by you.
