Micro Wedding price guide

Staying on the traditional route? There's nothing wrong with that! I am happy to accommodate your needs so that your wedding day is unforgettably special. I am currently focused on the more intimate side of weddings or also known as "micro" weddings but I am more than willing to tackle the bigger weddings as well and help make those Pinterest board wedding day photos a reality. In doing so I will handle finding a second shooter & videographer for you if that's more your speed. Prices start at \$1200 but are always customized and tailored to your needs to help ease your worries!
