# Sarah Groh

## The Complete Wedding Musician

---

Thank you and Congratulations on your Celebration!

**My name is Sarah and I am a professional singer, pianist, and curator of music.** I have successfully supplied wedding and memorial music for over 300 Protestant, Secular, and Catholic services within the span of 27 years.

**For your wedding service:** I am able to sing and play the piano or keyboard during your service. I can help you select music for the occasion and give you an idea if the music you

select is acceptable by the venue of your choice. In some cases, pop tunes are not allowed in formal church settings. To be sure, I will contact your church or venue and secure music, mass parts, and needed equipment for your special day. I have also worked with many out of state family members who wish to be a part of the ceremony. I will buy music, connect with your "cousin who will play the violin" and schedule a rehearsal time around the wedding day.

**For your reception:** I can supply a tasty jazz quartet to play in the background of your party. An intimate group of upright bass, keys, drums, guitar, vocals playing standard jazz and R&B tunes. The nice thing about having a quiet little jazz quartet is, the older couples will really enjoy dancing and hearing the sweet tunes they fell in love to.
