

the *Wedding* e x p e r i e n c e

At this point, I assume you've had the chance to look at my work, which means you know I love capturing the candid moments. I am aware that at weddings, the standard "family poses" are necessary, but if you are also looking for photos that encapsulate those intimate moments, I got you! Candid photos are my jam.

My experience with weddings does not end with photography. I have been a bridesmaid nine times (cue the "27 Dresses" jokes, haha). This means I know how a wedding should flow, how much time should be allotted for pictures, what touches couples find important, and catch the small details. I will use this knowledge and experience to help your day flow as smoothly as possible - ensuring you are able to enjoy the little moments instead of constantly worrying, "What's next?"

You won't feel stiff or staged in front of my lens. In fact, it's my goal for you to forget I am even taking pictures. My amazing clients frequently tell me how I helped make them feel comfortable, confident, and candid in front of their camera. I will make sure you laugh, embrace each other, and really soak in the few quiet moments you have together on your wedding day.

the *Process*

I am not just here to take pictures of your wedding. I am here to get to know you, form a relationship with you -- one where you know you can come to me with questions or seeking advice, and be confident that I will help you navigate every step on the way to your big day.

This starts with a Zoom call to "meet" you and understand your wants and needs in a photographer. If, after the call, you decide we are a good match, I will send you all of the information you need to book me for your wedding day! From there, I will reach out periodically to discuss timelines, offer advice/assistance, and to just make sure you're not getting completely lost in the throes of wedding planning.

I always say, I don't like the word "client," because it is so much more than that. I hope that by the time your wedding arrives, we are friends <3
