

Why Rukavina Photography?

I pride myself on being able to determine what each of my customers desire for their wedding photography. I want your images to represent not only my style, but also who you both are. This way you will cherish the products you invest in from my studio.

I am currently, the only certified professional photographer in the Boerne area, and I take my work very seriously. I am very well aware of the fact that after all the festivities are over and the gifts are put away, my images will be the only reminder you have of one of the most special days in your lives. Your memories are not just precious to you, they are very precious to me and my studio.

This time in your life is special and I will make certain that your images reflect that. You will not receive just snapshots from me. You will receive artistically crafted images made just for you to enjoy.

My packages are extremely simple. I charge a fee for me to shoot your wedding. Period. You then get to decide which product you want. I don't want to rope you into a package that you don't really want, just to get my minimum requirement in. I take a lot of pride in my work and I want it to be shown, not stuck in a drawer. We often customize packages tailor made for your needs, so don't hesitate to ask! We offer a wide variety of products that we are happy to incorporate into your package as well.
