Video Enhancements

Video Booth - \$150.00USD per 20 people or 20 groups.

- › This is by far our most popular add-on because of the super fun comments we get out of it. I have "nicknamed" it the confession booth.
- › What is a Video booth?- we take 20 people or a groups of 20 and asked them a few funny inside questions created by your family and friends followed by a private message. This gets real fun to do at the end of the night when people are relaxed with a few drinks in them, a must have in my opinion.

Raw Unedited Footage - \$225USD

- › What is raw unedited footage?- Receive everything we filmed throughout the entire day on a hard drive unedited, uncut and its all yours to later master or simple look through for a laugh. Much of the footage we film we don't use during editing so there is loads of footage from behind the scenes etc. for you to watch in HD format, you can even edit your own Wedding videos later on in life if you decide you want a second version and of course the footage can later be remastered by another editor at any time.

Short HD Film 10-20 min - \$630USD *Add-on*

- › For a more detailed "short film like" wedding video that is engaging & fun, our new "add on" is the cinematic short film. Along with your full version edit, and Wedding trailer/highlight you will also get a 15-20 minute edit of your entire wedding day, edited with more detail like a documentary. This version will contain much of the "unused" video footage from the other 2 video versions, we take a entire different approach while filming for this video enhancement, relying on much more natural audio and using higher end audio equipment to capture these sound bits from behind the scene bridal party "getting ready" bits, short interviews with family and candid moments throughout the day. You'll be LOL at what really goes on during all the in-betweens, some really funny out takes etc. so you get to see much more or if not all of the footage we captured during your special day.

Pre wedding video session - \$120USD

- › Sometimes on the wedding day things are so hectic, fast paced and everything has a tight schedule that we have to try and follow. As you can see from many of my films like to tell your story and I heavily rely on the wedding couples photo shoot("B-Roll" we call it) to create your story to be placed over much of the audio from the ceremony and/or speeches, however in many cases due to the tight schedule and photographer needing his shots as well we don't always get enough footage as we would like or it can sometimes just feel very rushed. Having the 1-2hr pre wedding video shoot can really not only help the wedding story but can spice up your entire video when mixed with your real wedding moments, don't worry you don't have to be dressed in your wedding outfits, it can be totally casual, stay on location or go off site. We can even do a little interview just incase we don't have enough good audio bits to use from your wedding day, another way to spice up the video especially if you have interesting love story... We can get real creative with it and film some holiday moments/scene's underwater swimming, cliff diving or what ever you maybe getting into the weeks/days before your wedding here in Thailand.

Or make it a separate video itself similar to a save date style video....Even add a pre wedding photo shoot if you'd like and get a discount on both services

Price start from a 1 hour on location shoot at \$120.00USD any extra time or locations prices are \$120.00USD

4k Ultra HD

- › What is 4K? 4K is offering 4 times the resolution (SIZE & DETAIL) of standard HD, 4K will stun your family and friend in quality and clarity. It will also help against the fast growing technology, 4K TV's are already becoming the "new trending thing" and everything will be moving from 1080HD to 4K in the next couple of years.

Don't miss the advanced level of filming and heavy post processing load this enhancement cost - 40,000THB extra (on top of normal package prices)

Blu-Ray DVD - \$150.00USD

- › We are no stranger to Blu-Ray now a days, its a FULL HD DVD that will play on your HDTV (with a Blu-Ray Player) to get a high quality and clarity image, much more of a WoW then your SD(standard def) DVD many others are still offering.

Aerial / Drone cinematography - \$315.00USD *Add-on*

- › Add a aerial video shot(s) to your ceremony or venue to even spice up your video even more with the cool cinematic flying shot that will leave everybody with there mouths open wide!

Same Day Edit/Rush Edit

- › Chill out at your reception and watch your amazing wedding day up on a big screen, a 3-4 minute highlights clip of your morning ceremonies, this sure will lighten everyones mood and enhance your evening with joy and laughter!. **Ideal for anyone.** Rush edits-Any rush editing needed for parties etc., back in your home city that is before our 8 week deadline can be done at an extra cost, note this will be a draft video of your wedding trailer/highlight. **Does Not include projector & screen.**

- › SDE-\$350.00USD
- › Rush edit - \$300.00USD
- › SDE with pre-wedding footage = \$550.00USD

Sunset/sunrise Timelapse - \$100.00USD

- › Add a beautiful sunrise, sunset or any scenic timelapse scene that maybe relevant to your destination wedding from Phuket, Krabi, Koh Samui, Phi Phi Island, Bangkok, Singapore, Hong Kong, and Bali. This is just another great option to add-on to your wedding film, capture not just the events and venue but the entire mood/feel of the environment.
