# WEDDING PRICING

Wedding photography is usually a large investment with pricing that is often over complicated.

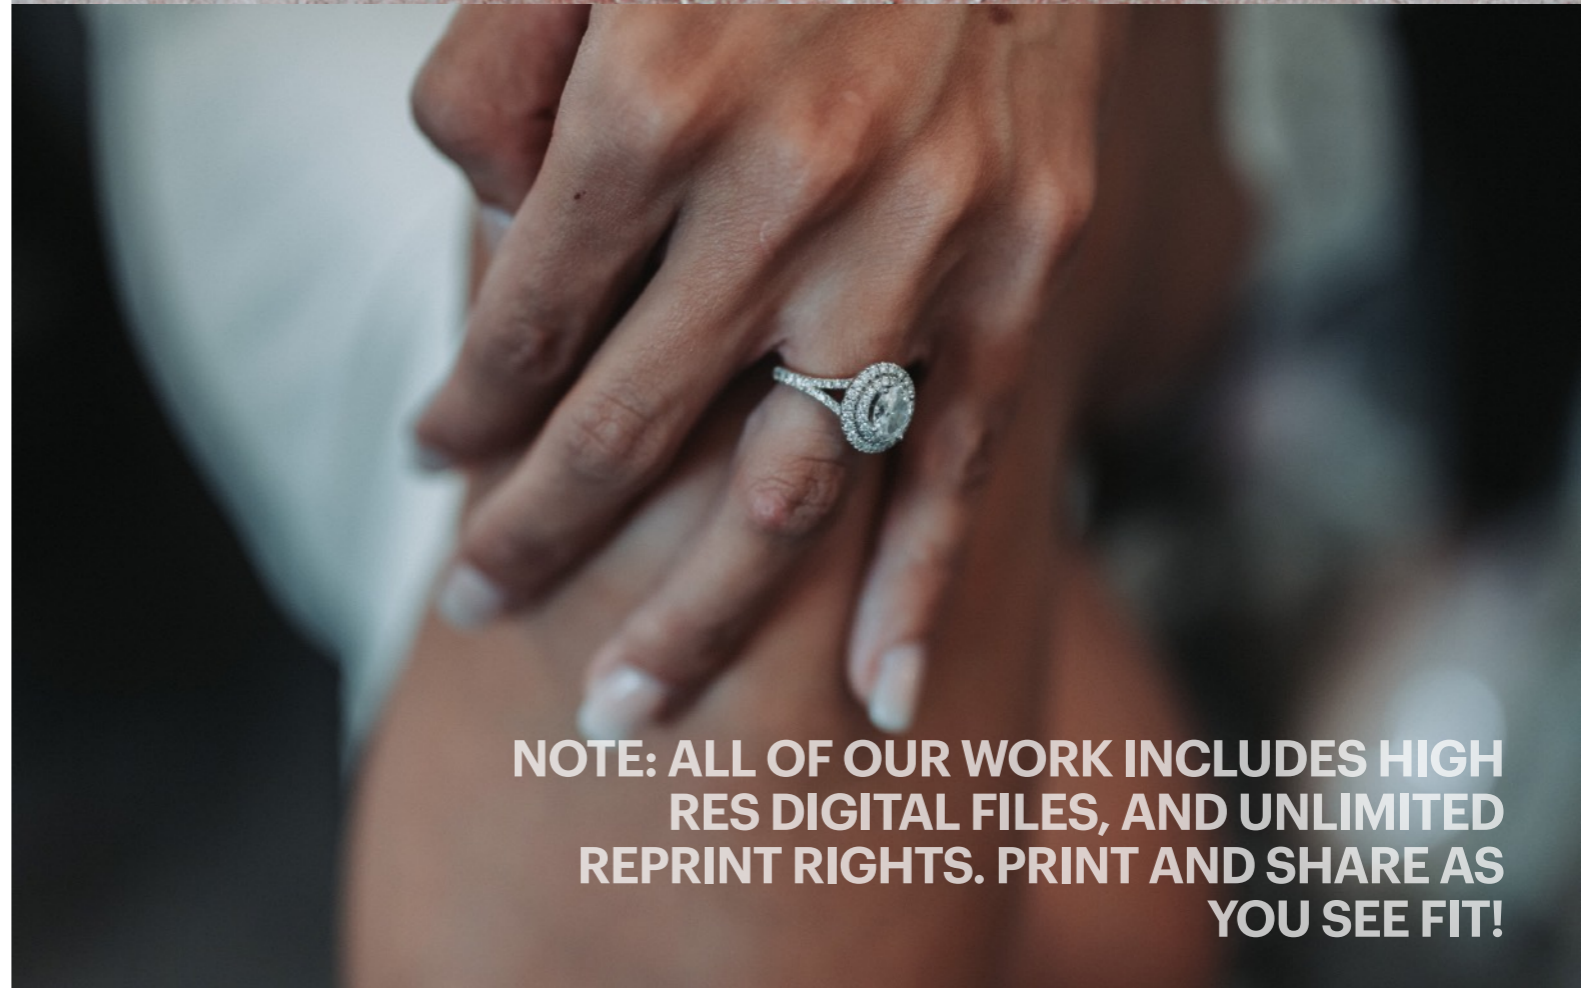

When shopping around you will find that most photographers build a variety of confusing packages based on the number of hours they offer making it difficult, if not impossible to afford getting your entire day covered.

**I choose to keep it simple. We have one full package at a cost of \$2499 and we will cover your entire wedding day up to 10 hours.**

This should provide enough time to capture everything from the bride getting ready all the way until you leave for the evening.

If you need a bridal, or engagement session, or want rehearsal dinner coverage, simply add a portrait session for \$299. If you need a second shooter, that is available for \$499.

\*All prices are valid for weddings booked/contracted during calendar year 2021 - even if your event occurs in a future year.

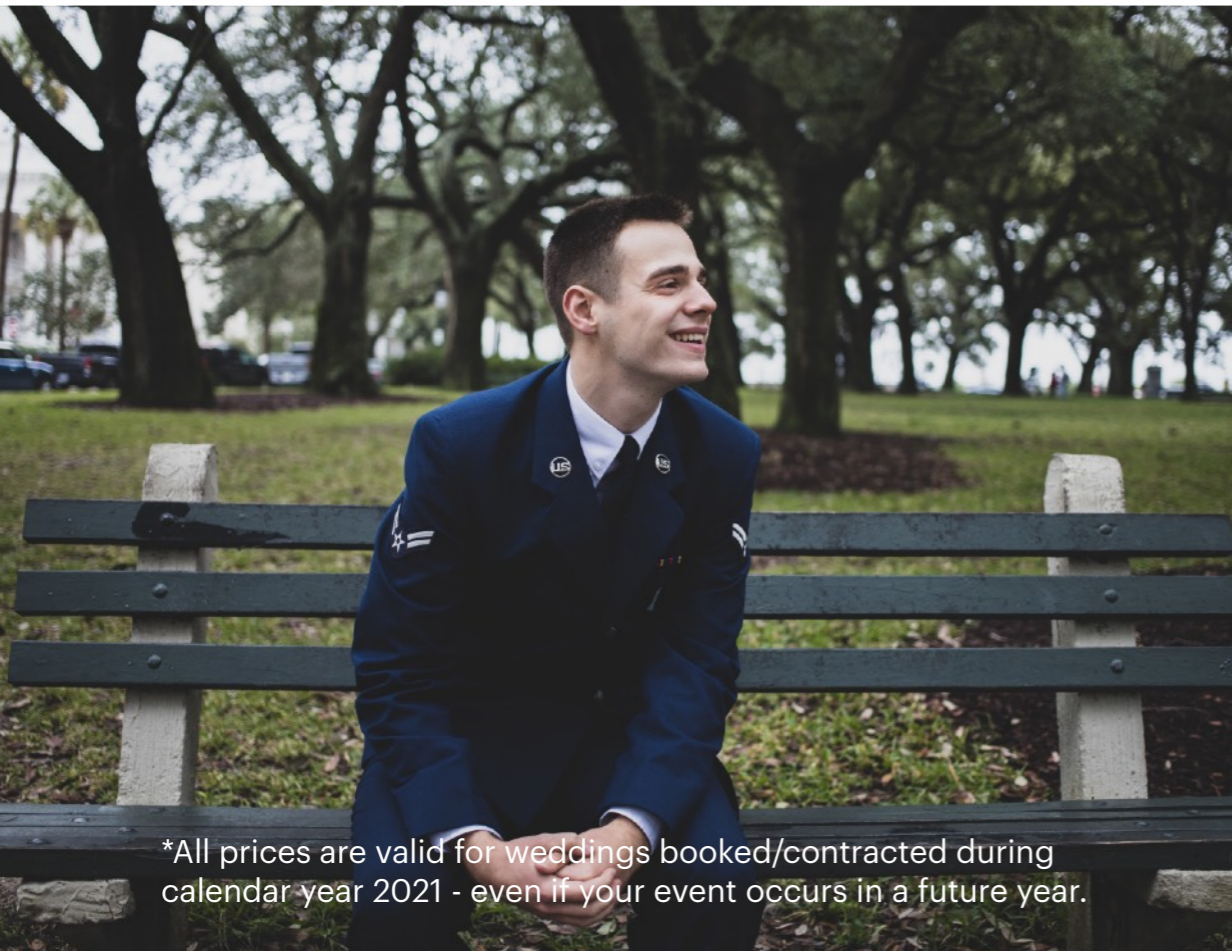

**NOTE: ALL OF OUR WORK INCLUDES HIGH RES DIGITAL FILES, AND UNLIMITED REPRINT RIGHTS. PRINT AND SHARE AS YOU SEE FIT!**

# MICRO WEDDINGS

IF THE TIMES HAVE YOU RETHINKING THE SIZE OF YOUR WEDDING, OR IF YOU'VE ALWAYS JUST LOVED THE IDEA OF AN INTIMATE GATHERING OF A FEW CLOSE FRIENDS AND FAMILY MEMBERS, YOU MIGHT WANT TO CONSIDER A MICRO WEDDING / ELOPEMENT PACKAGE FOR \$999. THIS INCLUDES UP TO 4 HOURS FOR EVENTS WITH UP TO 25 TOTAL PARTICIPANTS. IT IS IDEAL FOR EITHER PREPARATION/CEREMONY, OR CEREMONY/RECEPTION COVERAGE.

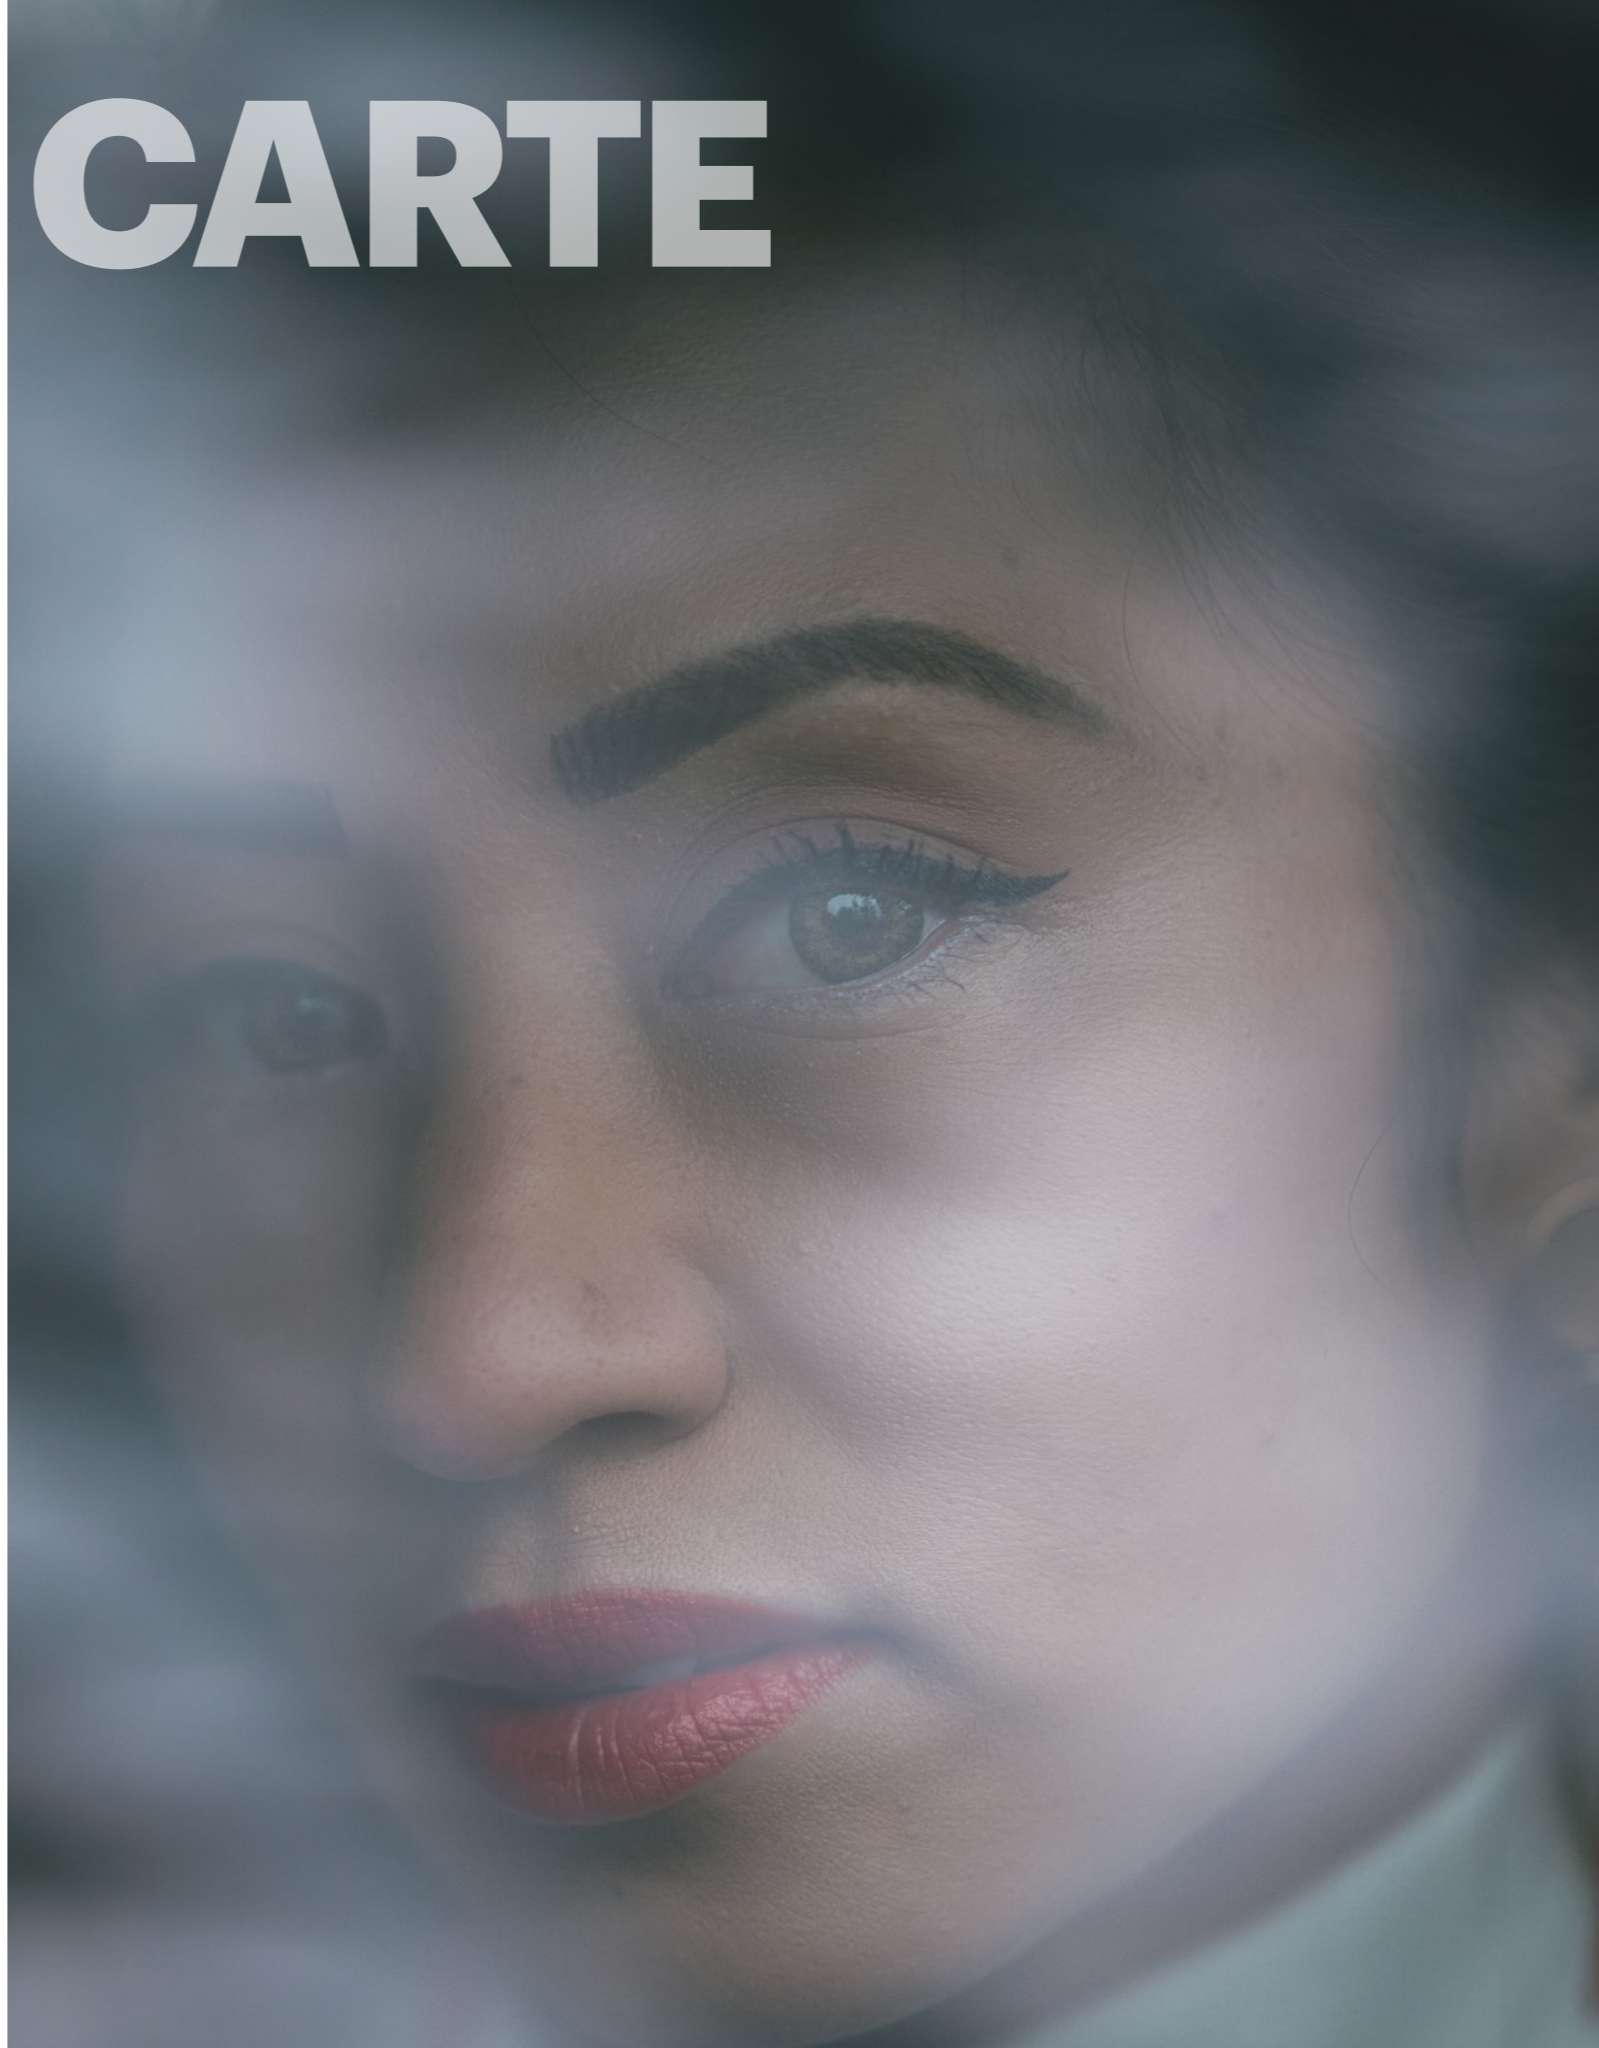

\*All prices are valid for weddings booked/contracted during calendar year 2021 - even if your event occurs in a future year.

# À LA CARTE

**IF YOU PREFER, WE  
ARE AVAILABLE AT A  
RATE OF \$249 PER  
HOUR.**

**TAILOR THE  
COVERAGE TO FIT  
YOUR NEEDS.**

# KIND WORDS

*Aron is truly amazing! He was so patient and so kind! His pictures were the best. He was phenomenal. He caught all the right moments and I love my bridal portraits! Every single one of them stunning.*

*Aron exceeded all of our expectations making our special day even more memorable. From the engagement pictures, bridal shoot, rehearsal dinner, Aron was there to capture all of those special moments leading up to our big day. Once the day arrived, he was everywhere from getting pictures of the bride getting ready with her attendants and pre-wedding pictures with the groom and guys before the ceremony even started.*

*If you are looking for a wedding photographer that is a true professional, talented, knowledgeable and will over-deliver every step of the way, I couldn't think of anyone that will set your experience apart from the rest of them like Aron.*

*- David & Jenny*

*"I have absolutely only good things to say about Aron. He has such a great personality and is definitely someone everyone should have at any event! He and his wonderful assistant came along with us to the courthouse where we said our vows and then took some absolutely breathtaking photos around downtown Charleston. He kept us smiling and laughing even though it was absolutely freezing outside in December! Keeping us laughing and having a good time he captured the best photos of the entire family! He transformed a simple park downtown into a place you would think was built on a set for a movie. My husband, family and I are so thankful for Aron!"*

*"I booked Aron for an engagement session and it was more than I would have asked for; he captured the love between 2 people in a picture. Thank you for such an amazing eye..."*

## ABOUT ME

My name is Aron Simons...and I am a photographer. I am not sure when it started, but I guess I've always had a passion for great imagery. I can remember getting my first camera as a kid, and putting 15 rolls of film through it on one trip and being fascinated by the ability to freeze time. I used to look at magazines and not care that I wasn't reading any of the articles; I was captivated by the imagery and even as a kid was trying to figure out how a particular image was made. But I decided very early on that it doesn't matter if you take the perfect picture, and impress other photographers. My goal from the start was just to make my customers happy. So that's what I did, and continue to do. As technology progressed, as my skills got better and better, I kept coming back to that one focus...capture images that make your customers feel something and the rest just falls into place.
