16-35 f/2.8L

When we get home, files are immediately uploaded and backed up.  
We also utilize an online backup.

Your photos will be loaded to dropbox for you to download.

They will also be placed on an online viewing site called PASS which will stay online for 10 years. Friends and family can download from this amazing site for free.

We work really hard to make weddings represent each bride and we always make friends in the process. It's such a great day! Weddings are the best and we find it a privilege to be such a big part in someone's most special day!!!

Please also check out our blog: [www.tracydodsonphotography.com](http://www.tracydodsonphotography.com) to better acquaint yourself with our style and photographic voice, should you like to view more of our portfolios.

We shoot for YOU - for moments. We definitely shoot the details but mostly we are concerned with capturing your day in its entirety and telling your special story. When you get your photos back, you will be pleased with all the moments captured.

We try to remain current and yet not trendy so that your photos are timeless. We personally look and process each photo and do not send anything out for post processing.

We are over the top on the photos meaning you will get a lot of photos. Online PASS sites are available for you to look at in order to see a wedding in its entirety.
