Pricing Subject to Changes. Lock-In Today.

Quick Note

Please understand pricing is all inclusive. The value you see includes the editing/retouching/enhancing phase, time spent photographing & filming, mobile studio equipment costs, location fees & permitting if applicable as well as photographer transportation. Please understand I typically work alone & am a single individual. I take time to plan out & produce the highest quality imagery for your wedding day.

It is pertinent that we have multiple consultations prior to your wedding date. If you have scheduled an Engagement Session or Romantic Dinner Session, they are best photographed prior to your wedding date. We will need to figure out a day & time that works best with your schedule to get these done.

Pricing can sometimes be a touchy subject & I am aware of this. If you require further details or assistance in understanding what is available to you in the form of a preformulated package or via a personally catered estimate, please don't hesitate to ask. It is my prerogative to provide you with the best possible experience working through this lengthy & at times tedious process.

This is an exciting time for you! Congratulations on your engagement, & I look forward to earning your business for this special, important time in your lives!
