

"Kelly, you never cease to amaze us. Thank you so much for the wedding album. It was waiting on us Christmas morning and it was by far the best gift we opened! It is absolutely stunning; it couldn't have turned out any better. I love being surround by all our amazing wedding photos!" - Michelle and Tony Morrell, July 2015, Chicago IL

What sets you apart?

Kevin and I are a husband/wife team that work exclusively with each other. After over a decade together behind the cameras, and twenty years together as a couple, we can practically read each others' minds! We create a beautiful match of traditional, illustrative and journalistic styles of images, that compliment each other and give you the most well-rounded story possible. Our clients love the different perspectives we create as a team, and often like to guess who created which image.

What equipment do you use?

We work with backups for our backups! Our Canon cameras and lenses are well loved, but also well maintained with yearly attention from Canon Professional Services. We carry three camera bodies, making sure we have a spare, just in case. We carry 14 lenses ranging from 14mm to 400mm, assuring you the most variety of looks during your coverage. With three separate flash systems, we've got every lighting scenario covered!

Do we get the rights to print our own photos?

Absolutely! All our Collections and Sessions include printable files with a usage release for unlimited printing up to 8x12. We're happy to help with your printing needs, as we offer a full line of albums, wall decor and smaller photograph options. Our professional labs will get it right the first time! But you're more than welcome to DIY if you like. ;)

Do you recommend any other vendors?

We've been photographing weddings on St. Croix for over a decade, and have seen just about every wedding planner, florist, hair stylist and DJ come and go over the years. We are happy to share the inside scoop on the who's who of the wedding scene. Just let us know what you're looking for.
