## Wedding Investment

Congratulations on your engagement! This is such an exciting time for you and your fiancée and I am honored to be considered as you make this decision for your special day. Below you will find more information about me and my services.

## A Little About Me

Hey there! My name is Katie and I am an alternative wedding photographer based in Orange County. My veins are filled with iced coffee and, most of the time, all I want to do is dance. I began my photography career later in life during my college days where I discovered film photography. I spent countless hours in the dark room developing photographs in chemicals and I loved every minute of it. Growing up, I struggled to fit in, which is why I label myself as an "alternative" photographer. I'm not fancy, I'm not formal, and I've been known to curse. My skin is covered in art and I prefer dogs over people any day. My favorite part of photography is not just about capturing your wedding day, but helping you create a day that is unique to your love. As classy as traditional weddings can be, I'm all about the bold, adventurous lovers who are looking for an unconventional wedding day. I want to capture your love, your way. So, if that sounds like you, it's already a perfect match.
