What I love

Turning moments into memories and capturing the best of your big day is what I love about wedding photography. Capturing details, moments, smiles, and turning them into timeless art is what my approach to wedding photography is all about.

I work in close contact with the bride through the planning process and on the wedding day itself. I make sure to know what the bride's expectations are, then make sure that my style and skills are tailored to meet those expectations. My goal is to be flexible through-out the whole process, from styling photos to the timeline itself. I understand how overwhelming planning can be and offer to do whatever I can on my end to make the day run smoothly.

Style: Me + you

I have my artistic preferences and from there I make adjustments to what you want the results to be. If you want a moody, posed, dramatic shoot, we can do that. If you want all candid, natural, fun & laughing, we'll get that too. I've developed a questionnaire that lets us talk about exactly what your expectations are and how I can meet them. Even if you have no idea what you want, don't stress because we can figure it out!

Pricing

While this is part of my income, it's also my passion. One of my biggest philosophies with my freelance work is to maintain reasonable and fair pricing. With the wedding industry continuing to increase \$\$\$, I try to be particularly cautious with this. My packages are carefully priced based off honest calculations of my time, effort, and business needs. I offer multiple packages and each are customizable to fit your needs.
