dear bride and grooms to be

When I think of wedding photos I don't just want to give you the cliché group shots, I want to be able to capture memories. The photographs of your wedding is something that will last from each generation. Sometimes the photos are even considered as art for the couple. I personally want to be able to create photos where you can look back and remember the feelings of that day. I want the bride to have photos where she feels beautiful and timeless.

columbus MONTHLY IT GIRL WEDDINGS

Hire Bree NOW! Seriously. She is one of the sweetest girls I have ever met and she was such a joy to work with on our wedding day. From our first meeting with her and all through our wedding she was such a calming presence and fit in with our group seamlessly. She is like an instant friend! Everyone I've talked to has commented on how great, sweet, and professional she was <3 Bree is super organized and helped tweak/finalize our day of schedule which was so helpful to have that feedback. She is patient, flexible, professional and fun when it comes to shooting and at no point in the day did we feel awkward or stressed. She also got us our final images very quickly and had a preview just 2 weeks after our wedding. I love her style, she has a beautiful way with light and really captures the love and magic of the day. I felt natural and beautiful, never posed! You will not regret working with Bree <3

AFTER THE WEDDING & THE FINAL PHOTOS

Photography is what I do full time, and my brides are my first priority, so I have a three week turn-around time for your photos to be finished and available to you.

- You will be sent a private, online gallery to access your digital download at that time.

****Every package I offer includes this as well.****

- Downloads are un-limited while your gallery is live to accommodate easy-sharing with your loved ones.

- While the gallery is up, you can order prints directly within your galley, with easy selections for any albums you may want to purchase. We live in a digital world, but print really holds memories, so I make it easy for my couples to order those tangible products to have in their home.

The Client Experience

Hiring me is not hiring me for one day.. From the moment you book with me, your experience begins. You're not just investing in your photographer; you are investing in capturing your memories.

THE CONSULTATION

To me, finding a wedding photographer is a lot like finding “The One.” There are so many options out there and these days, looking for your wedding photographer is a lot like swiping through a dating app.

- The consultation is for YOU. I provide everything you need to know about what the session includes, what my process is, and how the day will look overall. Then you get to tell me what you envision and are looking for!
- Knowing all of this, we can make sure we are the perfect fit for each other and mesh well together. I want you to have the perfect person to fit YOUR VIBE of your day.

If I feel like my style of photography is not fit, I will guide you to someone I think would be. Typically I book couples 9-12 months before their wedding date; particularly Summer and Fall Dates I book about a year in advance.

THE PERSONALIZED TIMELINE EXPERIENCE

Every package comes with myself & my experience from shooting weddings for the last 12 years. Showing up with no plan is NOT my thing.

Aside from just getting my photography, additionally you get help planning the photo timeline for the wedding day, just a few months before the wedding. You get a smooth and stress-free transition into the wedding day so that you are comfortable and at ease. Having a photo timeline will help you enjoy those moments and be more present for the memories that day!

While we talk schedule together, I also really want to get to know YOU before the wedding. You are not just a client to me. Period. You are a person and this is one of the most important days for you.

- 1.As a fun bonus, I will send you a survey to get to know your aesthetics and personality! This helps me tailor the wedding photograph experience to your desires and passions.
- 2.I also encourage my brides to make a moodboard of poses that inspires them so we can look over and discuss them as a TEAM. It's like if you were to hire a designer to redo your kitchen. It would be terrifying to just let someone come into your house and design YOUR house however they wanted. The same can be said for wedding photos. I want to see what you like, so I can create the photos your dreams are made of.

“

I cannot say enough great things about Bree and her services. From her communication, professionalism and creative shooting, she truly was a pleasure to have around on our wedding day. It's always apparent when someone is passionate about their work and you can tell Bree takes her job seriously, but still has an easy going, fun loving personality to make you feel like you've known her your whole life!

AMBER

“

Bree Lea Photography was the best decision I made about my wedding. She was so helpful with the timeline and keeping us on schedule day of. The photos are all so amazing I can't choose my favorite. She is very professional and you can tell she is passionate about her work. 100% recommend!!!

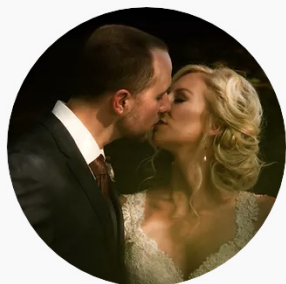

THE REYNOLDS

“

Bree was the perfect wedding photographer for our wedding. She was so responsive and helpful in the planning process, helping with timing and answering all of our questions so quickly and thoroughly. The day of the wedding Bree was flexible, professional, and helpful with more than just photography. It felt like she was a friend because she was able to blend so well. She was a large part of why our day went so smoothly. Bree captured the day beautifully and was so patient with group shots. The photos are high quality and really capture the magic of the day. We got to see them pretty soon after the wedding, as well. Her kindness and professionalism were not unnoticed

THE ENGAGEMENT SESSION

Not required; but are strongly encouraged.

I offer super affordable options to make sure everyone ALSO has an opportunity to have engagement photos that fit their budget. An engagement session with your photographer is SO important. It allows us to meet, and to get comfortable with each other before that big wedding day!

Two reasons this is important:

1. Every couple I've had an engagement session with before their wedding, always have even more SPECTACULAR portraits on the actual wedding day. These "before" sessions are like practice runs. Engagement sessions are longer than what you usually get on the wedding day for portraits, meaning we can try everything.

2. Although I am accustomed to following couples and photographing their intimate moments, if I am brand new to YOU on the wedding day, it will be more difficult for you to relax in those moments. And you are human. The first 10-15 minutes of being in front of a camera will feel and look forced, because you are still warming up to being photographed. Trust me, you don't want that to be your wedding day.

Engagement sessions help me see what you like and respond best to.

Couples who may have thought they liked "candid photos," realize that they want to or need to be posed, which ends up making everyone feel awkward. Until you are being photographed, you really don't know. With an engagement shoot, I get to learn all of that before your wedding day so that when the day comes and we can skip that getting to know each other phase. Therefore, on the wedding day, we can get those awesome photos of you two and really make the most of our time together. STRESS FREE

“

Bree did such an amazing job with our wedding. It wasn't a big wedding, and the groom is not a fan of getting his photo taken usually. She tailored the photography to us and really captured how small and intimate our ceremony was, and she managed to make the groom relaxed and enjoying the experience (not an easy task!). Bree is just such a pleasure to work with, and she really, truly cares about the people she is photographing. They're not cookie cutter shots; she makes sure that each photo really reflects the personality of the people in them.

“

Where do I even begin?! Working with Bree, as our wedding photographer, was such a blessing. From her sweet, professional demeanor to her incredible photography skills, I was able to have the bride/photographer relationship, and photos, I dreamed about. Bree's communication was always prompt and she helped me create our Day-Of schedule, which made the wedding planning process much less stressful.
