Who we are?

Underground studio is a creative team of visual storytellers:

Claudia Hernandez from Mexico City, the Belgian photographer Jonathan Jallet and Bruno Castilla from Puebla.

Jonathan was travelling around the world with his camera when he arrives in Puerto Vallarta for the first time in 2016, He immediatly fell in love with the culture of the country and the warmness of Mexican people.

He decided to stay here for a while and eventually met with Claudia with whom he fell in love.

Both of them being photographers, it didnt take long before they decided to start a wonderfull adventure together and that's how Underground Studio was born.

Bruno, our director and filmmaker started his career in television in Puebla, before moving in Puerto Vallarta 8 years ago and eventually join our team.

He will capture your union with a cinematic approach that will keep you speechless whether you decide our short Highlight film of Full Wedding film option.

We specialize in weddings because love, is what we love.

A wedding is a day full of joy and emotions and we always try to capture the best of it in our work. We shoot in a candid photojournalism style mixed with some fine portraiture.
