\* Adornments are pre-selected upon initial consultation.

## Customize Your Ceremony

Are you looking for a specific color palette for your ceremony adornments? Would you like to extend your photography and videography session times? Do you need help getting ready during the big day? We have you covered, just let us know and we can workup a custom quote for you in a snap!

Additionally, many people want to know about our photography & videography team. This is coordinated with our preferred photography and videography team at [Yokan Studio](#). Starting package rates include a 90 minute session that begins during the ceremony. Enjoy 50 retouched images that you can share with your friends and family. The starting rate for our photography-only package is \$300. The starting rate for videography-only is \$400. The starting rate for a combined photography and videography is \$525.

Upgrades are available and will be discussed during your initial consultation call. If you choose to use your own photographer or videographer for any of the elopement packages, then a \$50 coordination fee will still be applied.
