THE VISION

"DG Visionaries is the culmination of everything I love about the power of telecommunications. It's a physical manifestation resulting from years of trial and error in my attempt to perfect the art of visual and auditory storytelling.

After completing my undergrad at Ball State University I noticed a severe lack of businesses in the creative industry that cared about their client's vision just as much as their own vision.

Thus, DG Visionaries was born. We believe in utilizing our tools, resources, creativity, and professional experience to help people just like you turn their visions into reality.

No event is too big or too small, and we've worked with dozens of clients across Indiana and beyond on various projects including weddings, concerts, short films, and music videos to name a few. Our team of Visionaries think outside the box in order to deliver a final product that can be remembered for decades to come."

VIDEO PRODUCTION

PRE-PRODUCTION

Need a script, treatment, storyboard, casting services, or all of the above? We got you covered! During Pre-Production we'll help write the blueprint to ensure your project is a success. Our team leaves nothing to chance and take pride in our attention to detail. We understand the importance of your vision and make it our mission to bring it to life. By planning ahead we'll keep stress levels low and productivity high—all without breaking the budget!

PRODUCTION

All of the planning leads to this. Our Visionaries are masters at transforming words on paper into images on screen—and we don't take this job lightly. We use industry grade cameras, lights, and audio equipment to give your visuals a professional, cinematic glow. Every project is unique and you can count on us to hire the best crew possible for the vision at hand.

POST-PRODUCTION

Post-Production involves more than just editing. It's about working together to ensure the final product matches your vision and finds an audience. File backups, rough cuts, visual effects, and sound design are just a few of the services our in-house editing studio has to offer. Once everything's said and done we'll help market your content through our social media channels.

MOBILE DJ & MC

Meet DJ Gray. He's been in the wedding DJ business for over 3 years with a proven track record of making unforgettable nights.

Honest Reviews:

"Best DJ ever! I have been in business for 4 1/2 years as a professional Wedding Photographer and Derald was HANDS down the best DJ we have yet to work with! I have and will continue to refer him to my brides! SUPER fun, VERY professional and excellent equipment!"

- Melissa Waldron / Professional Wedding Photographer

"Very professional from the first day we booked them. Very organized and detail oriented! Our DJ we had was Derald and he was awesome throughout the entire night he was talking with guest and leading dances and was just an absolute rock star. At one point in the night there was a power surge at the venue and all of Derald's equipment shut off. It took him only 2 minutes to get back up and running. Even when faced with an issue Derald was still the MVP of the night!"

- Samuel Adams / Married June 2019
