FAQ

CAN YOU DESCRIBE YOUR STYLE?

My goal is to blend in on your wedding day - capturing those intimate, organic moments is what my work is about. I like to witness the moments as they naturally occur; and there will be so many moments that happen so quickly, my goal is to deliver memories you didn't even know happened. I will never awkwardly pose you, instead I will give subtle direction and photograph how you both react naturally. I want my work to reflect to real you, together. I want to capture for you how you FELT - not just how you looked.

WHY IS THE ENGAGEMENT SHOOT INCLUDED? CAN WE DISCOUNT IT?

For me, the engagement shoot is like a photo rehearsal. It gives us a chance to hang out and get a sense of each others' style. You'll get a first hand look at how I shoot, and I'll get to see how comfortable you feel in front of the camera - but one thing's for sure, we're going to have fun just hanging out, and by the end of the session, and by wedding day, we'll have gotten our flow down with me in front of the camera. For destination weddings, rehearsal dinner coverage can serve as the photo rehearsal, instead :)

DO YOU TRAVEL FOR WEDDINGS?

Most definitely! I have home bases in Florida and Puerto Rico, and I'm excited to fly out anywhere - so heck yes!

FAQ

WE LOVE YOUR WORK, WHAT'S THE NEXT STEP?

Once you decide on a package and the digital contract is signed, all that's required is a deposit equivalent to one third of the final amount. Then, your day is all booked!

WHY DO YOU OFFER MAINLY FULL DAY COVERAGE?

Full day coverage is my preference because I consider myself a story teller, and I'd prefer to tell the whole story. This wedding is a once in a lifetime event, bound to be full of little, intimate moments, those small details, that you'll both want to remember. I want to capture the things you're too swept up in the day to notice. I want to tell the complete story, from the girls hanging out in the getting ready room, the boys being boys, building up to the ceremony, sweet dancing pictures and everything in between - I strive to capture it all, from start to finish.

WE ARE CONSIDERING A FIRST LOOK. YOUR THOUGHTS?

From a photographer's view, I love them, mainly because we're not rushed after the ceremony to capture amazing photos in less than 30 minutes after the family formals. From a regular person's view, I also love them because if you think about it, throughout the entire day you both will never have a quiet moment alone together at all. The first look is really a cool, unique moment that only you two will experience, allowing you some time and space to truly let those emotions sink in without being around a crowd. No holding back. Plus, you'll get to enjoy cocktail hour, too ;) Let's talk about it!

“

At times I didn't even notice they were **shooting** & when I saw specific shots I thought, **WOW** I didn't even realize they were around for that! Our photos are **incredible!** I am so impressed with their **attention to detail**. From portraits and family pictures to the amazing photos of our decor, Thirty Three and a Third truly **captured the essence** of our day!"
