

Elegant Bliss Wedding Photography by, Bob Perachio, would be thrilled to photograph your wedding celebration. With 12+ years of experience photographing weddings, I accept approximately 20-25 weddings a year, mostly held in the Boston area and surrounding New England states. From time to time I am lucky to attend a handful of destination celebrations held throughout the Eastern USA, Florida Keys, Caribbean and/or outside of the USA.

My energetic, fun & lively approach is how I capture your big day. The wedding industry may refer to my style as, photojournalistic. I like to call it fun, fresh, spontaneous creative portraits with emotionally charged candid images that reflect each couple's story and relationship. It's more than photojournalistic, as I add a creative personality & energy to your wedding photos that reflect who you are. A good image requires more than a fancy camera, and I invest my heart and soul into creating photographs that are more than just pretty pictures. However creative I may think I am, I never leave out the import and traditional aspects of your wedding day.

Basic packages start at \$3000.00.
