

# VenYou Planners

## **Full-Service Wedding Planning – Starting at \$1,500**

- Conducting venue site search
- Providing budget assistance and analysis
- Exploring vendor options and providing education
- Offering unlimited advice and guidance
- Coordinating and attending all vendor meetings
- Acting as client liaison amongst team
- Orchestrating wedding day transportation
- Arranging and directing rehearsal of ceremony
- Creating customized, detailed wedding day itinerary
- Overseeing and managing wedding day (from set up to completion)

## **Partial Wedding Planning – Starting at \$1,000**

Partial planning packages are built based on the needs of the couple. This option is recommended for couples who wish to plan most of their wedding on their own. Planner gives guidance on which vendors they prefer, helps build itinerary for wedding day, and day-of-coordination is included for the day of the wedding.

## **Hourly Consultations - \$50 an hour**

Ideal for couples who just have several questions about their big day and how to make it amazing! Our team of planners will meet with you at your discretion to help send you in the right direction when it comes to vendors, timelines, budgets and much more!

## **Day-of-Coordination – Starting at \$600**

Whether you choose to have a planner or not, a day-of-coordinator is highly recommended. Prices varies depending on how many hours you choose to have the coordinator on site for your wedding. The coordinator should be there from set up to take down on wedding day, and should be present for the rehearsal dinner, to help things go smoothly. If you want to plan your wedding yourself, having a day-of-coordinator is a great option, to make sure things go exactly as you desire for the wedding day. The coordinator will communicate with all vendors, create a timeline for the day, help lead set-up to ensure your vision for the wedding is achieved and will stay until everything is taken down (to leave you with no worries).
