IV MENU

Myers Cocktail: \$199

The Myers' Cocktail is named for the late John Myers, M.D., a Maryland physician who used intravenous injections of nutrients to treat many chronic conditions. Conditions that have responded positively to the Myers' cocktail treatment include asthma, migraines, chronic fatigue syndrome, fibromyalgia, muscle spasms, pain, allergies, and sinus and respiratory tract infections. The benefits of a Myer's Cocktail IV are well documented, especially its effective treatment of headaches, fatigue, mood disorders, and circulatory issues. The Myer's Cocktail contains electrolytes, B-Complex (Vitamins B1/2/3/5/6) B12, Magnesium, Vitamin C, and Glutathione.

Hangover Cure:\$149

Did you party a little too much last night? It's ok, it happens. There's no need to wait around and suffer with a crippling hangover for hours and hours when you can get rid of your symptoms much faster. The Hangover Cure will do just that. It works by rehydrating your body and replacing the vitamins and minerals that have been depleted from alcohol consumption. It also helps relieve symptoms by giving your body minerals like magnesium that reduce inflammation. The Hangover Cure contains Electrolytes, Vitamins B1/2/3/5/6, and Magnesium.

Energy+Performance: \$165

This blend is perfect for anyone living a very active lifestyle as it was formulated to give you a huge boost of energy and allow your body to perform at the level that you need it to. It is perfect for athletes, runners, crossfitters, and everyone in between who demands more from their body. Whether you're training hard or have a long active day coming up, this blend will give you the boost you need to perform at your best. The Energy and Performance Blend contains electrolytes, Vitamins B1/2/3/5/6, and B12, Magnesium, a Tri-Amino blend of Arginine, Citrulline, and Ornithine.

Immunity Booster: \$179

Staying healthy and active is essential in avoiding sickness like the cold and flu. If you're like most people, you don't consume enough vitamins and minerals from food to keep your immune system as strong as it could be. Our Immunity Booster fills in the gap and provides the body with the essential vitamins and minerals to keep your immune system in tip top shape. The Immunity Booster contains a high dose of Vitamin C, Electrolytes, Vitamins B1/2/3/5/6, Glutathione, and Magnesium.

IV HYDRATION 2 U
Making Wellness Easy

Master Blend: \$229

Same benefits as the Myer's cocktail with maximum dosing on two key ingredients: Ascorbic Acid and Glutathione. Benefits of the higher dosing includes: increased antioxidant properties, stress reliever, mood stabilization, improved sleep, liver detoxification, and so much more.

Anti-Aging Blend: \$299 (requires pre order)

Provides the benefits found in the Myer's with increased dosing, as well as the addition of the numerous benefits of NAD+.

Migraine Blend: \$149

Provides the essentials in combating a migraine. Pain relief comes in the form of a non-opioid, which is accompanied by a dose of nausea relief.

Weight Loss Blend: \$199

Provides essential vitamins with hydration, along with the powerful effects of L-Carnitine. Some of these effects include: L-Carnitine focuses on pulling energy from fat stores, in order to make it readily available for the body to use. As with all weight loss solutions, this is best paired with a diet and exercise routine.

NAD+ Therapy - IV

NAD+ is an amazing coenzyme that occurs naturally in almost all the cells in your body. It has been shown to improve mental clarity, increase energy and endurance, improve mood, help you sleep better, protect against stress, reduce inflammation, and more. Normal NAD+ treatments from other IV companies take hours, we can do it in just a few minutes. We offer NAD+ Therapy treatments at 250mg, 500mg, and 1000mg

We can add 250mg NAD+ to ANY Signature IV blend. We can also administer just NAD+ through an IV in 250 mg doses.

NAD+ with Signature IV Blend - \$400 (across the board, no matter the blend!)

IV with just NAD+ (no other ingredients):

\$300 - 250mg NAD IV (1 IV Treatment)

\$600 - 500mg NAD IV (2 IV Treatments)

\$700 - 750mg NAD IV (3 IV Treatments)

\$800 - 1000mg NAD IV (4 IV Treatments)

Injections (All Injections are IM not IV)

\$30 - Vitamin B12 - Vitamin B12 is well known for increasing your energy and metabolism, as well as improving your mood AND your sleep.

\$50 - Fat Burner/B12 (MIC/B12) - Weight loss is something millions of people struggle with! This injection is here to help. MIC has been shown to pull energy from fat cells and make it readily available for the body to use, giving you better results from your diet and exercise plan.

\$50 - Super "B" Energy Blend - A potent dose of all your B vitamins, B1 through B12.

\$50 - Ultimate Performance - This shot combines the energy boosting benefits of B12 with 3 Amino Acids that help to expand your blood vessels. The added energy and improved blood flow throughout the body helps you perform at peak levels longer than any kind of energy drink or pre-workout supplement.

\$60 - Trifecta Immune Booster - Give your body the max dose of Vitamin C, Vitamin D, and Glutathione all in one injection. Boost your immune system and help your body fight against colds, flu, and other ailments.

\$50 - Migraine Relief - We have helped hundreds of people feel relief from even their worst migraines in just minutes with this injection. Toradol and magnesium are both well known for reducing inflammation and relieving stress felt within the body.

\$60 - Nausea Relief - Having trouble keeping food and fluids down? We are here to help. Zofran is used daily in every hospital in the country. Get the relief you need NOW without the wait!

\$40 - Anti Inflammatory - We also sometimes refer to this injection as the "Pain Relief" injection! Reducing inflammation within the body can definitely help to relieve pain. The best part is that it starts working within minutes!

\$80 - Hangover Shot - Whether it's due to a long and fun night out, or a cold/flu that's got you down, this shot is the "One-Two" punch for both inflammation and nausea.
