Olive Tree Officiants are selected based on personality, willingness to serve the needs of engaged and married couples, and ultimately their love for weddings. Olive Tree provides wedding ceremony planning services, and schedules Officiants for your wedding wherever you'd like your wedding to take place. We serve the central coast. Our Officiants are certified, licensed and experienced. We officiate any and all types of services including religious and non-religious, small and large, traditional and non-traditional.

Wedding ceremonies take time to create. Olive Tree Officiating ensures that your ceremony planning will be perfect by providing each client with a Wedding Ceremony Planning Specialist. An experienced Officiant, working with you, your Planner/Coordinator, the Photographer and all other support professionals to ensure that your ceremony is exactly the way you want it to be. Like any creative, unique work of art, planning a wedding ceremony that reflects the values and beliefs of the couple requires time and attention.

Olive Tree Officiants have seen a few weddings. That means we are ready to make suggestions for you, wording, ceremonies, inclusions and exclusions to your ceremony that will best embody your beliefs, values and history while painting a picture of the future you will lead with your fiancé. We are here to help you capture the joyful past of two people in love, and to paint a picture of the exciting future you will have together. All of that can be shown in the creation of your unique wedding ceremony.
