Sometimes couples book the venue then do some research for possible vendors, search Pinterest/Google for inspiration, maybe do a Facebook/Instagram shout-out looking for vendors suggestions, etc. Once they have found who they feel is right for the job, they **bring someone (aka a wedding planner) on board to make sense of it all, stay on top of the planning process, and help keep everything organized!**

- Coordination & attendance of appointments with venues and vendors to ensure fair pricing, while ensuring the bride and groom remain in budget.
- Customized **Wedding Planning Timeline & Checklist** that will guide the couple step by step in the entire planning process and that will ensure things are done in a timely manner.
- Help with style/theme suggestions, design and decor.
- Budget development and management.
- Assistance with save-the-dates and invitation design (*this does not include assembly*).
- Weekly planning sessions, ongoing communication and support (follow-ups, reminders, etc).
